

ISO/IEC JTC/1 SC/2 WG/2
Universal Multiple-Octet Coded Character Set (UCS)
Secretariat: ITSCJ

Title:	KHMER UP-DATE
Doc. Type:	Expert contribution
Source:	Takayuki K. Sato -Japan
Project:	02.18.25 (UCS)
Status:	For reservation as an agenda item in Beijing WG2 meeting
Date:	2000-01-05
Distribution:	SC2 WG2
Reference:	ISO/IEC 10646-1 AMD-25 KHMER

This expert contribution is a kind of place holder for the Beijing WG2 meeting agenda.

There is an activity going on in Cambodia to up date AMD-25 Khmer script. The contribution with detailed requirements will be available in later, but it is necessary to reserve a slot for the Khmer discussion in the Beijing agenda.

The requirements includes two key components in it.

1. A couple of additional characters which will be required on top of the AMD-25.
2. There are a couple of (3?) unnecessary for Cambodian today, proposal for treatment of those unnecessary characters.

Mr. Convenre, please have an agenda item for "Cambodian input for AMD-25 Khmer ". The contribution will be available in later.

Sato understand that the Beijing meeting is mainly for 2^d edition publication and CD 10646-2 allot comments disposition. And time available for the new characters are very small. However, for Cambodian expert Beijing is affordable distance compared with the travel expense for Greece or USA. Please give them a chance to disclose their requirement as a native user at Beijing. -----end----
