

ISO/IEC JTC 1/SC 2
CODED CHARACTER SETS
SECRETARIAT: JAPAN (JISC)

DOC TYPE: Business Plan

TITLE: Draft SC 2 Business Plan to the JTC 1 Tromsø Meeting

SOURCE: Prof. Kohji Shibano, SC 2 Chairman

PROJECT: --

STATUS: For review at the tenth SC 2 plenary meeting to be held in Athens, Greece, 2000-09-25/26.

ACTION ID: ACT

DUE DATE:

DISTRIBUTION: P, O and L Members of ISO/IEC JTC 1/SC 2
WG Conveners and Secretariats
Secretariat, ISO/IEC JTC 1
ISO/IEC ITTF

NO. OF PAGES: 5

ACCESS LEVEL: Open

DRAFT BUSINESS PLAN FOR JTC 1/SC 2

prepared 2000.09.10

PERIOD COVERED: October 1999 – September 2000

SUBMITTED BY: Kohji SHIBANO , Chair of JTC 1/SC 2

1.0 MANAGEMENT SUMMARY:

1.1 JTC 1/ SC 2 STATEMENT OF SCOPE

Title: Coded Character Sets

Scope: Standardization of graphic character sets and their characteristics, associated control functions, their coded representation for information interchange and code extension techniques. Excluded: audio and picture coding.

1.2 PROJECT REPORT

Total Number of Projects: 84 including all subprojects.

Total Number of P members: 35 P Members

New Projects: None.

New Subproject: 1

- JTC 1.02.18.01.01.00.02,
ISO/IEC 10646-1: 2000/Amd 1, Universal Multiple-Octet Coded Character Set (UCS) -- Part 1: Architecture and Basic Multilingual Plane, AMENDMENT 1: Encoding space limitations and repertoire additions

Transferred Projects (from TC 46/SC 4): 8

ISO 5426:1983, ISO 5427:1984, ISO 5428: 1984, ISO 6438:1983, ISO 6862: 1996,
ISO 10585:1996, ISO 10586:1996, ISO 11822:1996

New Revision Work: None

Withdrawn project: None

1.3 COOPERATION AND COMPETITION

SC 2 is playing the key role in the area of coded character set standardization.

Memorandum of understanding on the transfer of ISO/TC 46 coded character sets based on TC 46 plenary resolution is now processing within SC 2. Based on this memorandum, transfer of TC 46 standards to SC 2 is underway.

SC 2 has been very successful in cooperation with SC 22, SC 31, SC 32 and SC 35.

SC 2 has also been successful in cooperation with external standard organizations, such as ITU-T, CEN/TC 304, and with industry consortia, such as Unicode Inc. and GSE (Guide Share Europe).

For SC 2/WG 2/IRG (Ideographic Rapporteur Group) work, TCA (Taiwan) and HKITF (Hong Kong) provided important contributions. For Mongolian script extension of ISO/IEC 10646-1, UNU (United Nations University) provided an important contribution.

2.0 PERIOD REVIEW

2.1 MARKET REQUIREMENTS

As stated in the previous business plan, requirements for the development of Coded Character Sets are still strong.

Rapid development utilizing JTC 1 procedures are mandatory for SC 2 work.

Widespread use of the Internet technologies, such as WWW, even an ordinal person now faces with and has to use ISO standard such as 8859 series of standards and 10646.

Therefore, easy access to SC 2 standards is crucial to avoid confusions between users and implementators.

2.2 ACHIEVEMENTS

Published projects: 1

- JTC 1.02.18.01.00.00.02
ISO/IEC 10646-1 (2nd Ed.), Universal Multiple-Octet Coded Character Set (UCS) -- Part 1: Architecture and Basic Multilingual Plane (**2000-mm-dd**)

Projects progressed to IS: 6

- JTC 1.02.18.01.15:
ISO/IEC 10646-1/Amd 15: Kang Xi radicals and CJK radicals supplement (Published as 2ed Edition of ISO/IEC 10646-1)
- JTC 1.02.18.01.24:

- ISO/IEC 10646-1/Amd 24: Thaana (Published as 2ed Edition of ISO/IEC 10646-1)
- JTC1.02.18.01.28:
ISO/IEC 10646-1/Amd 28: Ideographic description characters (Published as 2ed Edition of ISO/IEC 10646-1)
- JTC 1.02.18.01.29:
ISO/IEC 10646-1/Amd 29: Mongolian (Published as 2ed Edition of ISO/IEC 10646-1)
- JTC 1.02.18.01.30:
ISO/IEC 10646-1/Amd 30: Additional Latin and other characters (Published as 2ed Edition of ISO/IEC 10646-1)
- JTC 1.02.18.01.31:
ISO/IEC 10646-1/Amd 31: Tibetan Extension (Published as 2ed Edition of ISO/IEC 10646-1)

Projects progressed to FDIS/FDAM: None

Projects progressed to FCD/FPDAM: 2

- JTC 1.02.18.02
FCD 10646-2, Universal Multiple-Octet Coded Character set (UCS) -- Part 2: CJK Unified, Ideographs Supplementary plane, General Scripts and Symbols Plane, General Purpose Plane
- JTC 1.02.14.01/02.00.00.03
FCD 6937, Coded graphic character set for text communication -- Latin alphabet (3rd Ed.)

Projects Progressed to CD/PDAM: 1

- JTC 1.02.04.00.00.04
CD 2375, Procedure for registration of escape sequences

2.3 RESOURCES

SC 2 should be considered as one of the largest SCs in JTC 1 in terms of membership. The number of current P-member National Bodies is 36 and O-member National Bodies is ten. All WGs and all developing projects have assigned officials. In this sense, SC 2 has sufficient resources.

3.0 FOCUS NEXT WORK PERIOD

3.1 DELIVERABLES:

The following projects are expected to be published during the next reporting period.

IS Publication: 4

- JTC 1.02.20.07:
ISO/IEC 8859-7 (2nd Ed.), 8-bit single-byte coded graphic character sets -- Part 7: Latin/Greek alphabet
- JTC 1.02.20.11:
ISO/IEC 8859-11, 8-bit single-byte coded graphic character sets -- Part 11: Latin/Thai character set

- JTC 1.02.18.02:
ISO/IEC 10646-2, Universal Multiple-Octet Coded Character set (UCS) -- Part 2: CJK Unified, Ideographs Supplementary plane, General Scripts and Symbols Plane, General Purpose Plane
- JTC 1.02.14.01/02:
ISO/IEC 6937 (3rd Ed.), Code graphic character set for text communication

3.2 STRATEGIES:

SC 2 should focus on the following four areas;

- (1) Provide easy access to SC 2 standards,
- (2) Support for new character coding requirements from developing countries,
- (3) Enhance visibility of SC 2 activities.
- (4) Clarification of character coding schemes.

3.2.1 RISKS

Most of the information concerning SC 2's standards can be obtained through the Internet but official standard itself can not be obtained through the Internet. Without availability of definitive information, that is SC 2 standards, through the Internet, it may cause a confusion of user communities and implementors.

Delay of SC 2 standard development may cause to cease new entries from developing countries to global information arena.

On the other hand, SC 2 development work covers wide range of scripts and SC 2 has published man amendment to ISO/IEC 10646-1. Users and implementors of the standards may not have a clear view of SC 2 works. Therefore, consolidation of amendments, i.e., publication of the second edition of ISO/IEC 10646-1 is very important. And a publication of roadmap of SC 2 is also important.

3.2.2 OPPORTUNITIES

SC 2 standards are and have been really effective for information interchange. However, as for internal processing codes, implementators' private coded character sets have been widely used.

Growing interests and requirements for real global information processing, there is an opportunities for SC 2 standards not only for information interchange but also for information processing including internationalized software portability.

3.3 WORK PROGRAM PRIORITIES

Enhancement of ISO/IEC 10646-1 is still the highest priority. Revision and enhancement of 8859 series of standards are also important.

Revision of ISO/IEC 10646-1 and 10646-2 will still be important.
