

**Swedish comments on SC2N 3616**

Sweden does not agree with the statements in SC2 N3616. We ask you to attach these comments to N3616 if you are going to send it to JTC1.

**Swedish Comments on CLAUI**

- 1 Sweden (SIS) is in principle positive to CLAUI (Cultural and Linguistic adaptability and User Interface Technical Direction) and its duties.
- 2 CLAUI should continue as a Technical Direction's coordinator and not as only an ad hoc group to JTC1.
- 3 A standing meeting agenda should be regarded as a checklist and not as the complete agenda.
- 4 Every invited meeting must have an agenda that includes an item for a well-identified task. A task - not necessarily a problem. A task that is a main reason for the meeting.
- 5 Regular meetings should take place – if and when statement 4 is fulfilled - closely before every regular JTC1 meeting.
- 6 If statement 4 is not fulfilled it may be possible to arrange a CLAUI workshop meeting during the regular JTC1 meeting week. This should be seen as only a fallback possibility and not the normal situation.
- 7 One of the chairmen of the three coordinated parts (SCs/WG) should be the permanently appointed chairman of CLAUI and be responsible for the invitation agendas.
- 8 One full day might be enough for a well prepared CLAUI meeting.
- 9 An extra meeting can be invited if the three chairmen agree.
- 10 The intention must be that the work of CLAUI leads to CLAUI recommendations to JTC1/SCs or to JTC1 or to others.
- 11 We see the need for determination and CLAUI recommendations and decisions with a high degree of consensus in its important work area of Cultural and Linguistic adaptability and User Interface.
