Subject: RE: [sc2doc 170] Ballot Reminder: SC2N3530 (10646-1/FPDAM 1)

Dear Mr. Melagrakis,

Your User ID and password for the E-balloting system is as follows:

User ID: 02GR
Password:

In order to proceed FCD 8859-7 to FDIS stage, I need Disposition of Comments Report on
FCD and Revised text for FDIS ballot. Please send me those two documents urgently.

Also I look forward to your WG 3 report. I hope that it reaches me during next week.

Regards,

Toshiko Kimura

Dear Mrs. Kimura,

I am back again in my office after a several months mission that I had in
Cyprus. I would like to ask you for the user id and password for the
e-balloting system of SC2, since it seems that we do not possess them.

Meanwhile, please be informed that our National Technical Committee has
finally decided to accept the comments made by the US and Canada on 8859-7
and leave character position 10/14 of Table2 (Code Table) of this draft
Standard empty. Also we would like to put in the relevant position 10/14 of
table 1 the remark "Left for future Standardization".

This was a major compromise on behalf of the Greek National Committee, since
the Standard was already approved, and there was no obligation to reverse
any vote for the Standard to be adopted. Anyway, I hope that now we satisfy
everyone and there should be no objection for the Standard to be processed
immediately as a new version of the 8859-7. This way, I hope that we almost
conclude with our work programme.

This is an official request for the SC2 Secretary to further process this
draft, and it comes jointly from the Greek National Committee and the
Convenor of WG3.

Apart from that, I will send you as soon as possible a WG3 report, for the
(rare) activity of WG3, in time to announce it in the SC2 Plenary.

Let me wish a very successfull meeting to all of you, and I am very sorry
that I will miss you this time.

Best regards,

Evangelos E. Melagrakis
ISO/IEC JTC1/SC2/WG3 Convenor
