Dear Mr. Melagrakis,

Your User ID and password for the E-balloting system is as follows:

User ID: 02GR
Password:

In order to proceed FCD 8859-7 to FDIS stage, I need Disposition of Comments Report on FCD and Revised text for FDIS ballot. Please send me those two documents urgently.

Also I look forward to your WG 3 report. I hope that it reaches me during next week.

Regards,

Toshiko Kimura

Dear Mrs. Kimura,

I am back again in my office after a several months mission that I had in Cyprus. I would like to ask you for the user id and password for the e-balloting system of SC2, since it seems that we do not possess them.

Meanwhile, please be informed that our National Technical Committee has finally decided to accept the comments made by the US and Canada on 8859-7 and leave character position 10/14 of Table2 (Code Table) of this draft Standard empty. Also we would like to put in the relevant position 10/14 of table 1 the remark "Left for future Standardization".

This was a major compromise on behalf of the Greek National Committee, since the Standard was already approved, and there was no obligation to reverse any vote for the Standard to be adopted. Anyway, I hope that now we satisfy everyone and there should be no objection for the Standard to be processed immediately as a new version of the 8859-7. This way, I hope that we almost conclude with our work programme.

This is an official request for the SC2 Secretary to further process this draft, and it comes jointly from the Greek National Committee and the Convenor of WG3.

Apart from that, I will send you as soon as possible a WG3 report, for the (rare) activity of WG3, in time to announce it in the SC2 Plenary.

Let me wish a very successful meeting to all of you, and I am very sorry that I will miss you this time.

Best regards,
Dear JTC 1/SC 2 Members,

The following letter ballot closes 2001-10-08.

SC 2 N 3530
ISO/IEC 10646-1: 2000/FPDAM 1

Information technology -- Universal Multiple-Octet Coded Character Set (UCS) -- Part 1: Architecture and Basic Multilingual Plane AMENDMENT 1: Mathematical symbols and other characters

Please vote via the electronic balloting system by the due date.

Regards,

Toshiko Kimura
