The Internationalization Working Group of the W3C is glad to announce the publication of two new documents:

1. Character Model for the World Wide Web 1.0: Fundamentals (http://www.w3.org/TR/charmod, Last Call)
2. Character Model for the World Wide Web 1.0: Normalization (http://www.w3.org/TR/charmod-norm, first Working Draft).

The Last Call for the first one (Fundamentals) ends on 19 March 2004 (Friday).
The main goal of the Last Call is to make sure that we have adequately addressed the comments we have received on the previous Last Call. But if you spot any problems, please make sure you tell us via the form or the mailing list indicated in the document.
