The equal by definition and equivalent by definition operators use symbols (see Table 1 and Table 2). We propose also combining definition in order to be able to use it with another character.

$\stackrel{\text{def}}{=}$ EQUAL TO BY DEFINITION

Table 1: Existing mathematical symbol

$\stackrel{\text{def}}{\circ}$ COMBINING DEFINITION
 $\stackrel{\text{def}}{\rightleftharpoons}$ EQUIVALENT TO BY DEFINITION

Table 2: Proposal mathematical symbols
