

ISO/IEC JTC 1/SC 2/WG 2
PROPOSAL SUMMARY FORM TO ACCOMPANY SUBMISSIONS
FOR ADDITIONS TO THE REPERTOIRE OF ISO/IEC 10646¹

Please fill all the sections A, B and C below.

Please read Principles and Procedures Document (P & P) from <http://www.dkuug.dk/JTC1/SC2/WG2/docs/principles.html> for guidelines and details before filling this form.

Please ensure you are using the latest Form from <http://www.dkuug.dk/JTC1/SC2/WG2/docs/summaryform.html>.

See also <http://www.dkuug.dk/JTC1/SC2/WG2/docs/roadmaps.html> for latest *Roadmaps*.

A. Administrative

1. Title: Preliminary proposal to encode Beria Giray Erfe (or Beria Branding Script)
 2. Requester's name: Lorna A. Priest
 3. Requester type (Member body/Liaison/Individual contribution): Individual contribution
 4. Submission date: 29 July 2008
 5. Requester's reference (if applicable): _____
 6. Choose one of the following: _____
 This is a complete proposal: No
 or, More information will be provided later: Yes

B. Technical – General

1. Choose one of the following:
 a. This proposal is for a new script (set of characters): Yes
 Proposed name of script: Beria Giray Erfe (or Beria Branding Script)
 b. The proposal is for addition of character(s) to an existing block: No
 Name of the existing block: _____
 2. Number of characters in proposal: 48
 3. Proposed category (select one from below - see section 2.2 of P&P document):
 A-Contemporary x B.1-Specialized (small collection) _____ B.2-Specialized (large collection) _____
 C-Major extinct _____ D-Attested extinct _____ E-Minor extinct _____
 F-Archaic Hieroglyphic or Ideographic _____ G-Obscure or questionable usage symbols _____
 4. Proposed Level of Implementation (1, 2 or 3) (see Annex K in P&P document): 1
 Is a rationale provided for the choice? No
 If Yes, reference: _____
 5. Is a repertoire including character names provided? Yes
 a. If YES, are the names in accordance with the "character naming guidelines"
 in Annex L of P&P document? Yes
 b. Are the character shapes attached in a legible form suitable for review? Yes
 6. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for
 publishing the standard? SIL International
 If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools
 used: <http://scripts.sil.org/ZaghawaBeria>
 7. References:
 a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided? Yes
 b. Are published examples of use (such as samples from newspapers, magazines, or other sources)
 of proposed characters attached? Yes
 8. Special encoding issues:
 Does the proposal address other aspects of character data processing (if applicable) such as input,
 presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)?
Yes, suggested character properties are included (see section D)

9. Additional Information:

Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at <http://www.unicode.org> for such information on other scripts. Also see <http://www.unicode.org/Public/UNIDATA/UCD.html> and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

¹ Form number: N2652-F (Original 1994-10-14; Revised 1995-01, 1995-04, 1996-04, 1996-08, 1999-03, 2001-05, 2001-09, 2003-11)

C. Technical - Justification

1. Has this proposal for addition of character(s) been submitted before? If YES explain _____	<u>No</u>
2. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)? If YES, with whom? <u>David Faris and through him to Siddick Adam Issa</u> If YES, available relevant documents: <u>See Section F</u>	<u>Yes</u>
3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included? Reference: <u>See comments in Section E</u>	_____
4. The context of use for the proposed characters (type of use; common or rare) Reference: <u>See comments in Section E</u>	<u>common</u>
5. Are the proposed characters in current use by the user community? If YES, where? Reference: <u>See comments in Section E</u>	<u>Yes</u>
6. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP? If YES, is a rationale provided? _____ If YES, reference: _____	<u>No</u>
7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?	<u>Yes</u>
8. Can any of the proposed characters be considered a presentation form of an existing character or character sequence? If YES, is a rationale for its inclusion provided? _____ If YES, reference: _____	<u>No</u>
9. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters? If YES, is a rationale for its inclusion provided? _____ If YES, reference: _____	<u>No</u>
10. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character? If YES, is a rationale for its inclusion provided? _____ If YES, reference: _____	<u>No</u>
11. Does the proposal include use of combining characters and/or use of composite sequences? If YES, is a rationale for such use provided? _____ If YES, reference: _____ Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided? If YES, reference: _____	<u>Yes</u> <u>Yes</u>
12. Does the proposal contain characters with any special properties such as control function or similar semantics? If YES, describe in detail (include attachment if necessary) _____	<u>No</u>
13. Does the proposal contain any Ideographic compatibility character(s)? If YES, is the equivalent corresponding unified ideographic character(s) identified? If YES, reference: _____	<u>No</u>

D.1. Proposed Characters

	xx1	xx2	xx3
0	𐌲	𐌳	𐌴
1	𐌲	𐌳	𐌴
2	𐌴	𐌵	𐌶

E. Other Information

E.1 Introduction

Beria Giray Erfe (ህፍሠገላ ገላገላ ርገላገላ) is built around a sampling of the markings on livestock (especially camels) within the Beria (http://www.ethnologue.com/show_language.asp?code=zag Zaghawa is the outsider's name and Beria is the name used by the people themselves) language region of western Sudan and eastern Chad. It is an idea that has its origins in the work of a Sudanese schoolteacher, who developed the first version of this script over 25 years ago. The script has since been better adapted to the Beria language by Siddik Adam Issa, and he has found a great enthusiasm by the people for what he has put together.

Regarding the name, "Beria Giray Erfe" would be the common name given to this kind of writing system by the Beri, meaning "Beria writing (giray) brand (erfe)", or "Beria branding writing [system]" in Beria. This is the preferred name although we are aware that an English name might be preferable. If so, we would suggest Beria Branding Script.

The script has a hanging baseline where the capitals descend lower than the small letters. Diacritics go above the baseline. Punctuation is even with the bottom of lowercase letters.

E.2 Diacritics

Diacritics are used in the script:

- U+0300 COMBINING GRAVE ACCENT represents falling tone
- U+0301 COMBINING ACUTE ACCENT represents rising tone
- U+0307 COMBINING DOT ABOVE represents stress
- U+0304 COMBINING MACRON represents +ATR (Advanced Tongue Root)

E.3 Punctuation and Numbers

Beria Giray Erfe uses DIGIT ZERO...DIGIT NINE. Latin punctuation marks such as FULL STOP, COMMA, QUESTION MARK, SINGLE and DOUBLE QUOTATION MARK are used.

E.4 Sorting

The characters are displayed in the chart in their correct sort order. This varies slightly from Figure 1. However, the sort order, as documented in Issa (2007), is what we have used.

E.5 Summary

Materials in the Beria Giray Erfe script are being actively developed. This is a preliminary proposal only. At this point we are only requesting that the script be added to the Unicode roadmap. However, any feedback on the proposal would be welcomed.
