Mr. Eric Muller
Adobe Systems, Inc.
345 Park Avenue
M/S W8
San Jose, CA 95110

Dear Eric:

At the January 15-17, 2008 of the INCITS EB Meeting, INCITS CT22 was restructured and a new technical committee, INCITS PL22, Programming Languages, their environments and system software interfaces was created. INCITS PL22 is now the US TAG to SC22. Additionally, the INCITS Executive Board made the recommendation that INCITS PL22 should establish a liaison relationship with INCITS L2 as they serve as the US TAG for SC 22 projects (ISO/IEC TR 10176, ISO/IEC TR 11017 and ISO/IEC 14651).

At its organizational meeting in April 2008, INCITS PL22, the US TAG to SC22, approved a motion to establish a liaison relationship with the INCITS L2.

Please confirm to tplum@plumhall.com that you will be the point of contact for this liaison relationship between INCITS PL22 and INCITS L2. In addition, the point of contact from INCITS PL22 will be **Thomas Plum**.

In addition, please note that the INCITS/RD-2 procedures require that INCITS L2 to take a reciprocal vote to establish this liaison relationship between INCITS PL22 and INCITS L2.

Thank you for your assistance.

Best Regards-

Thomas Plum
INCITS PL22 Chairman
