

JTC 1/SC 2/WG 2 **N3733**

Title: A Letter regarding uses of Japanese fonts

Date: 2009-10-29

Source: Japan

Status: FYI

Dear Mike Ksar, Convenor, JTC 1/SC 2/WG 2, and  
Peter Constable, WG 2 Liaison to Unicode Consortium,

I, Masahiro Sekiguchi, Chair of Japan National Body to SC 2, hereby confirm that following is a part of the intended uses of the ideograph fonts that Japanese National Body supplied:

- WG 2 editor to use the fonts to produce code charts to be included in the ISO/IEC standard and related working documents including drafts, and
- Unicode Consortium to use the code charts for publication of its Unicode Standard and related documents.

I hope this clarify the situation and promote the development of synchronized standards.

Masahiro Sekiguchi  
Chair, Japan National Body
