Emoji Additions: Animals, Compatibility, and More 

Popular Requests (revision 2)

To: UTC  
Date: February 2nd, 2015  
From: Emoji Sub-committee  
Live Doc: http://goo.gl/yq5QoA

Introduction

The following set of 30 characters are recommendations by the Unicode emoji sub-committee for encoding in a future version of the Unicode Standard. These symbols are considered for incorporation into Unicode for reasons such as compatibility usage, popular requests from online communities, and filling the gaps in the existing set of Unicode emoji.

For each proposed symbols, the rationale is added in the "Notes" column in the tables and there is more elaborate details in the section "Discussion". It should be noted that the web search engine results in the "Notes" is not a definitive factor; it is an indicator, but may not fully reflect the potential popularity of the corresponding image among online communities.

Proposed Characters

Faces and Body

<table>
<thead>
<tr>

<td>-------</td>
<td>-------------</td>
<td></td>
</tr>
<tr>
<td>X212</td>
<td><img src="image" alt="Call Me Hand" /></td>
<td><strong>CALL ME HAND</strong> Compatibility: Yahoo Messenger. Indicates that you want someone to call you. May be used after a face or smiley. Very popular and high expected frequency of use. Proposed by iDiversicons.</td>
<td></td>
</tr>
<tr>
<td>X213</td>
<td><img src="image" alt="Raised Back of Hand" /></td>
<td><strong>RAISED BACK OF HAND</strong> Compatibility: Yahoo Messenger. May be used in sequence with U+270B RAISED HAND (each with optional skin tone modifiers) to suggest &quot;high five&quot;. Expected usage for such a sequence is high (...). Originated in the U.S. but used around the world (Europe, UK, Japan, etc.). 330,000,000 hits on Google search. Proposed by iDiversicons.</td>
<td></td>
</tr>
<tr>
<td>X100</td>
<td><img src="image" alt="Pregnant Woman" /></td>
<td><strong>PREGNANT WOMAN</strong> Complete set with family, etc.</td>
<td></td>
</tr>
<tr>
<td>X106</td>
<td><img src="image" alt="Hero" /></td>
<td><strong>HERO</strong> various wished for emoji lists</td>
<td></td>
</tr>
<tr>
<td>X107</td>
<td><img src="image" alt="Thief / Criminal" /></td>
<td><strong>THIEF / CRIMINAL</strong> various wished for emoji lists Also burglar, criminal, villain</td>
<td></td>
</tr>
<tr>
<td>X205</td>
<td><img src="image" alt="Selfie" /></td>
<td><strong>SELFIE</strong> Selfie are very popular. Google hits 233,000,000. On original UTC proposal. Subject of request from Business Insider wish list, Brit Co wish list, Fortune Magazine, The Guardian Selfie image may be designed so that it is pointed at a following face symbol (of any kind). Very popular and expected usage is high. Proposed by iDiversicons.</td>
<td></td>
</tr>
<tr>
<td>X214</td>
<td><img src="image" alt="Left-Facing Fist" /></td>
<td><strong>LEFT-FACING FIST</strong> May be used in sequence with RIGHT-FACING FIST (each with optional skin tone modifiers) to suggest &quot;fist bump&quot;. Expected usage for such a sequence is high (e.g. 2.5 million Google hits for &quot;fist bump&quot;). Proposed by iDiversicons.</td>
<td></td>
</tr>
<tr>
<td>X215</td>
<td><img src="image" alt="Right-Facing Fist" /></td>
<td><strong>RIGHT-FACING FIST</strong> May be used in sequence with LEFT-FACING FIST (each with optional skin tone modifiers) to suggest &quot;fist bump&quot;. Expected usage for such a sequence is high (e.g. 2.5 million Google hits for &quot;fist bump&quot;). Proposed by iDiversicons.</td>
<td></td>
</tr>
<tr>
<td>X217</td>
<td><img src="image" alt="Hand Shake" /></td>
<td><strong>HAND SHAKE</strong> Normally in neutral ton. A handshake symbol is an important way to communicate agreement or 'we have a deal'. Emojitracker data shows that the single waving hand (the closes analog) has been used ~22,000,000 in tweets. 30,500,000 hits on Google search. Expected usage is very high, image distinctiveness...clearly recognizable. Already have several versions of hand emoji. Proposed by iDiversicons.</td>
<td></td>
</tr>
</tbody>
</table>
"Hoping for the best." NYmag & Business Insider lists, requests to Apple. One of the most widely recognized symbols in the Western world. 57,000,000 hit's on Google search. Very popular and high expected frequency of use. Proposed by iDiversicons.

Frustration, disbelief, disappointment, exasperation Apple requests

**Discussion**

**Compatibility**

Unicode emoji sub-committee discussed researching the existing sets of smiley symbols for major instant messaging services ([Yahoo Messenger](https://www.yahoo.com) and now discontinued [MSN Messenger](https://www.msn.com)) for the purpose of providing a mapping between existing emoji in Unicode and those symbols. Two comparison charts were prepared:

- [L2/15-059] Comparing Yahoo Messenger Smiley Set to Unicode Emoji
- [L2/15-058] Comparing MSN Messenger Smiley Set to Unicode Emoji

and 10 symbols which could neither be mapped to single code points nor to a sequence of emoji, were added to this proposal.

**iDiversicons**

iDiversicons proposed emoji additions extracted from L2/14-15R 7 Emoji Additions included in referenced proposal call me hand, high five, fist bump, hand shake, cross-fingers, clinking
The list of animal emoji in this proposal derive originally from document L2/14-174 by Mark Davis and Peter Edberg. Some of these animal emoji have been frequently requested, in websites suggesting emoji additions, as well as in direct requests to Unicode. Though the animal emoji additions are global, some of the requests for these are from North American sources. At present, we are not aware of similar campaigns or collected requests from elsewhere.

Sites with collections of requests for new animal emoji are:

19 Emoji That Really Should Exist (Business Insider)
   - Unicorn (accepted Oct 2014), T Rex head (future tranche), Lobster (future tranche), and Shiba Inu

And

18 Emojis That Should Exist But Don’t (Buzzfeed)
   - Unicorn (accepted Oct 2014), T Rex head (future tranche), Turkey (accepted Oct 2014)
   - Requests for animal emoji directly to Apple was for unicorn (accepted Oct 2014), and skunk (future tranche).

Requests for animal emoji directly to Unicode included squirrel and gorilla. Neither request has yet been accepted and will likely be part of a future tranche.

Some zoo top animal lists reviewed were:

   http://www.thetoptens.com/zoo-animals/
   http://shareranks.com/5632,Top-Animals-Found-at-a-Zoo
   http://www.hotelclub.com/blog/the-most-famous-zoo-animals-you-need-to-see/
   http://zooanimalphotos.com/favorite-zoo-animal-poll-results/

For bird emoji specifically, Cornell University Lab of Ornithology was consulted. Cornell University has one of the leading ornithology education and research departments in the
world. Their Lab of Ornithology has produced ebird.com with the largest source of global bird sighting and occurrence data. Additionally, they produce one of the two leading lists of birds and their systematic (much genetic) classification – *The Clements Checklist of Birds of the World*. The list of Cornell's Lab of Ornithology top desired bird emoji are (in order): Dove, Owl, Chicken, Eagle, Crow, Crane, Stork, Peacock, Robin or bluebird, Hummingbird, Duck, Pheasant, Magpie, Hawk, Turkey.

The Smithsonian Institute (a premier zoological organization) was also consulted for bird emoji. Their list of request bird emoji was as follows:

“Iconic extinct birds: Passenger Pigeon, Great Auk, Labrador Duck, Ivory-billed Woodpecker, Heath Hen

Iconic species of the world: Warbler, Thrush, Toucan, Hummingbird, Puffin, Long-billed Curlew, Bird of Paradise”

ISO/IEC JTC1/SC2/WG2
PROPOSAL SUMMARY FORM TO ACCOMPANY SUBMISSIONS
FOR ADDITIONS TO THE REPERTOIRE OF ISO/IEC 10646

Please fill all the sections A, B and C below.
Please ensure you are using the latest Form from http://std.dkuug.dk/JTC1/SC2/WG2/docs/summaryform.html.
See also http://std.dkuug.dk/JTC1/SC2/WG2/docs/roadmaps.html for latest Roadmaps.

A. Administrative
1. Title: Emoji Additions: Animals, Compatibility, and More Popular Requests
2. Requester’s name: Unicode emoji subcommittee
3. Requester type (Member body/Liaison/Individual contribution): Individual
4. Submission date:
5. Requester’s reference (if applicable):
6. Choose one of the following:
   This is a complete proposal: ■
   (or) More information will be provided later: □

B. Technical - General
1. Choose one of the following:
   a. This proposal is for a new script (set of characters): ■
   b. The proposal is for addition of character(s) to an existing block:
   Name of the existing block: Miscellaneous Symbols And Pictographs, Transport And Map Symbols, Supplemental Symbols and Pictographs
2. Number of characters in proposal: Thirty
3. Proposed category (select one from below - see section 2.2 of P&P document):
   □A-Contemporary ■B.1-Specialized (small collection) □B.2-Specialized (large collection)
   □C-Major extinct □D-Attested extinct □E-Minor extinct
   □F-Archaic Hieroglyphic or Ideographic □G-Obscure or questionable usage symbols
4. Is a repertoire including character names provided? Yes
   a. If YES, are the names in accordance with the "character naming guidelines" Yes
   b. Are the character shapes attached in a legible form suitable for review? Yes
5. Fonts related:
   a. Who will provide the appropriate computerized font to the Project Editor of 10646 for publishing the standard?
   b. Identify the party granting a license for use of the font by the editors (include address, e-mail, ftp-site, etc.):
6. References:
   a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided? N/A
   b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached? N/A
7. Special encoding issue
   Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)? No

---

8. Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at [http://www.unicode.org](http://www.unicode.org) for such information on other scripts. Also see UAX#44: [http://www.unicode.org/reports/tr44/](http://www.unicode.org/reports/tr44/) and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

C. Technical - Justification

1. Has this proposal for addition of character(s) been submitted before?   **No**
   If YES explain

2. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?  **No**
   If YES, available relevant documents:

3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?  **Yes**
   Reference:

4. The context of use for the proposed characters type of use; common or rare)
   Reference:

5. Are the proposed characters in current use by the user community?  **Yes**
   Reference:

6. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP?  **No**
   If YES, is a rationale provided?
   If Yes, reference:

7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?  **No**

8. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?  **No**
   If YES, is a rationale for its inclusion provided?
   If Yes, reference:

9. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?  **No**
   If YES, is a rationale for its inclusion provided?
   If Yes, reference:

10. Can any of the proposed character(s) be considered to be similar (in appearance or function) to, or could be confused with, an existing character?  **No**
    If YES, is a rationale for its inclusion provided?
    If Yes, reference:

11. Does the proposal include use of combining characters and/or use of composite sequences?  
    If YES, is a rationale for such use provided?  **No**
    If Yes, reference:  
    Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided?  
    If Yes, reference:

12. Does the proposal contain characters with any special properties such as control function or similar semantics?  **No**
    If YES, describe in detail (include attachment if necessary)

13. Does the proposal contain any Ideographic compatibility characters?  **No**
    If YES, are the equivalent corresponding unified ideographic characters identified?
    If Yes, reference:
