This document reports errors in the glyphs for four characters encoded in the CJK Unified Ideographs Extension C and E blocks. The source for all four characters is *Hànyǔ Fāngyán Dà Cídiǎn* [Great Dictionary of Chinese Dialects] (Beijing, 1999), and images from this dictionary given below show the correct glyph forms for these characters. The glyphs for these four characters should to be corrected, and in two cases the stroke count needs to be adjusted.
