1 Introduction

This document presents a revised preliminary code chart for the ‘Pau Cin Hau Syllabary’, which reflects its new allocation at U+14100..143FF in the Roadmap to the Supplementary Multilingual Plane (SMP). The code chart accompanies the following documents:

- L2/10-438 “Introducing the Logographic Script of Pau Cin Hau”
- L2/13-067 “Preliminary Code Chart for the Pau Cin Hau Syllabary”

It is to be used for informational purposes only. As indicated in the code chart, a new allocation for the script is required. Given the current allocation, the block starts at U+14100 and continues through to U+14525. That interferes with the adjacent ‘Anatolian Hieroglyphs’ block that is encoded at U+14400.

2 Acknowledgments

This project was made possible in part through a Google Research Award, granted to Deborah Anderson for the Script Encoding Initiative, and a grant from the United States National Endowment for the Humanities (PR-50205-15), which funds the Universal Scripts Project (part of the Script Encoding Initiative at the University of California, Berkeley). Any views, findings, conclusions or recommendations expressed in this publication do not necessarily reflect those of Google or the National Endowment for the Humanities.
