

mark, as in m^{hoo} *m^{hoo}*, that is, *mhoob* (RPA *hmoob*) ‘Hmong’. (The rule is that the tone mark is placed on the central character of a word, whether it is consonant or vowel. A word like hmoob has only three characters so the tone mark is applied to the h HA. When a word has three or more consonants before a vowel (usually seen when transcribing other languages than Hmong) than the mark goes on top center of the whole word, usually atop the first vowel.) The user decides what character to put the mark one.

Syllables are often run together, but when a syllable begins with a vowel, a space must precede it (there is no null consonant; vowel letters are letters, not dependent vowel signs).

Other combinations of letters are also used as digraphs; for instance, English *zoo* can be written szuu [zu:]; in RPA *s* is [ʃ] and *z* is [ʒ]. (Note the position of the tone mark on the second vowel.)

Two of the consonants can be read as vowels; ra [ra]~[ɹa] can also be read as *ai* [ai] and h can also be read as *o*; these vocalic readings are transcribed r and h here. Thus $\text{p}^{\text{r}}\text{p}^{\text{r}}\text{t}^{\text{a}}$ ‘very very short’ which could be transliterated as *př př táo* is read *pǎi pǎi táo* (RPA *paiv paiv taob*) which can also be written $\text{p}^{\text{r}}\text{p}^{\text{r}}\text{t}^{\text{a}}$ with the full vowels); in transcriptions of English “what” can be written huat which could be transliterated *huât* (perhaps RPA **huaj t*), and “Fresno” $\text{fr}^{\text{h}}\text{xn}^{\text{h}}$ which could be transliterated as *frěxnḥ* is read *frěxnḥ* (perhaps RPA **frev xnom*). Note that ra RPA *ra* is [ɹa], ha RPA *ha* is [ha].

3.0 Non-alphabetic characters are used in Nyiakeng Puachue Hmong. Ordinary generic punctuation marks (, ; : . ? ! “ ”) are used in Nyiakeng Puachue Hmong and can be represented by existing UCS characters.

3.1 Classifiers. The characters from U+1E137 to U+1E13B indicate various classes of noun; these do not have pronunciation, but are used in a fashion similar to determinatives in Ancient Egyptian, to help distinguish homophones. Classifiers appear as the last character in a word, and are not separated from the word by a space.

3.1.1 U+1E137 [◌] SIGN FOR PERSON. Called *oov* in Hmong, this determines a person, or more precisely a person’s name. It is placed immediately after the name of the person with no preceding space, as in $\text{ph}^{\text{ol}}\text{oo}$ (*phòl = Paul*) goes to school. The classifier is used after the name unless it is preceded with a description that describes it as a person; in a sentence like *My baby brother’s name is* $\text{ph}^{\text{ol}}\text{oo}$ the word $\text{ph}^{\text{ol}}\text{oo}$ ‘Paul’ does not require a determinative. See Figures 1, 2, 3, 6, 10.

3.1.2 U+1E138 [◌] SIGN FOR THING. Called *pes* in Hmong, this determines a thing or name of the thing. In a sentence like *There is a* $\text{phu}^{\text{r}}\text{oo}$ (*phuṛl = pearl*) here, the classifier indicates that the writer is talking about a pearl from the sea, not a person’s name, which is written $\text{phu}^{\text{r}}\text{oo}$. See Figures 1, 2, 3, 6, 10.

3.1.3 U+1E139 [◌] SIGN FOR LOCATION. Called *khav theeb* in Hmong, this determines a place or location. In *We went to* $\text{xai}^{\text{t}}\text{ph}^{\text{ol}}\text{oo}$ (*xaiṫ phòl = St. Paul*) indicates a place such as St. Paul, not the person $\text{xai}^{\text{t}}\text{ph}^{\text{ol}}\text{oo}$ (St. Paul/Saint Paul). This character is also used to identify landmarks or fixed locations, such as the Golden Gate Bridge, Mount Rushmore, Yosemite National Park, and so on. See Figures 1, 2, 3.

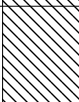

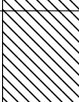

3.1.4 U+1E13A [◌] SIGN FOR ANIMAL. Called *khuam luas* in Hmong, this determines a vertebrate animal and/or its pet name. In a sentence like *I feed* $\text{thai}^{\text{dax}}\text{oo}$ (*thaidax = Titus*) when he is hungry, the classifier indicates that the writer is referring to a vertebrate animal (dog, cat, etc.) whose name is Titus. See Figures 1, 2, 3, 6.

Figure 7. Transliteration of English text into Nyiakeng Puachue script in a hymnal.

The transliteration reads:

ôl ntaw tshílnrŵn ốt thu nh̄
 ôl ntaw tshílnrŵn ốt thu nh̄
 ôl ntaw tshílnrŵn ốt thu nh̄ vŷat ntsíxax díd.
 ntsíxax nkěv híx láif òn khèlv’rì,
 sǎfawd, nplěd èn dài fh̄rr ôl:
 dài ntăt vùi màit lív fh̄lěavaw,
 ôl ntaw tshílnrŵn ốt thu nh̄.

ນ ງ ິ ັ ັ = ນ ັ ັ

ນ ັ ັ ນ ັ ັ ນ ັ ັ. ນ ັ ັ ນ ັ ັ ນ ັ ັ.

ນ ັ ັ ນ ັ ັ ນ ັ ັ ນ ັ ັ ນ ັ ັ. ນ ັ ັ ນ ັ ັ

ນ ັ ັ ນ ັ ັ. ນ ັ ັ ນ ັ ັ ນ ັ ັ. ນ ັ ັ ນ ັ ັ ນ ັ ັ.

Figure 10. From the primer *Learning Hmong*.

Figure 11. From the primer *Learning Hmong*.
The reading is ຮຸ່ນຮຸ່ນ, that is, ຮຸ່ນ ຮຸ່ນ, *ruun ruun* ‘vroom vroom’.

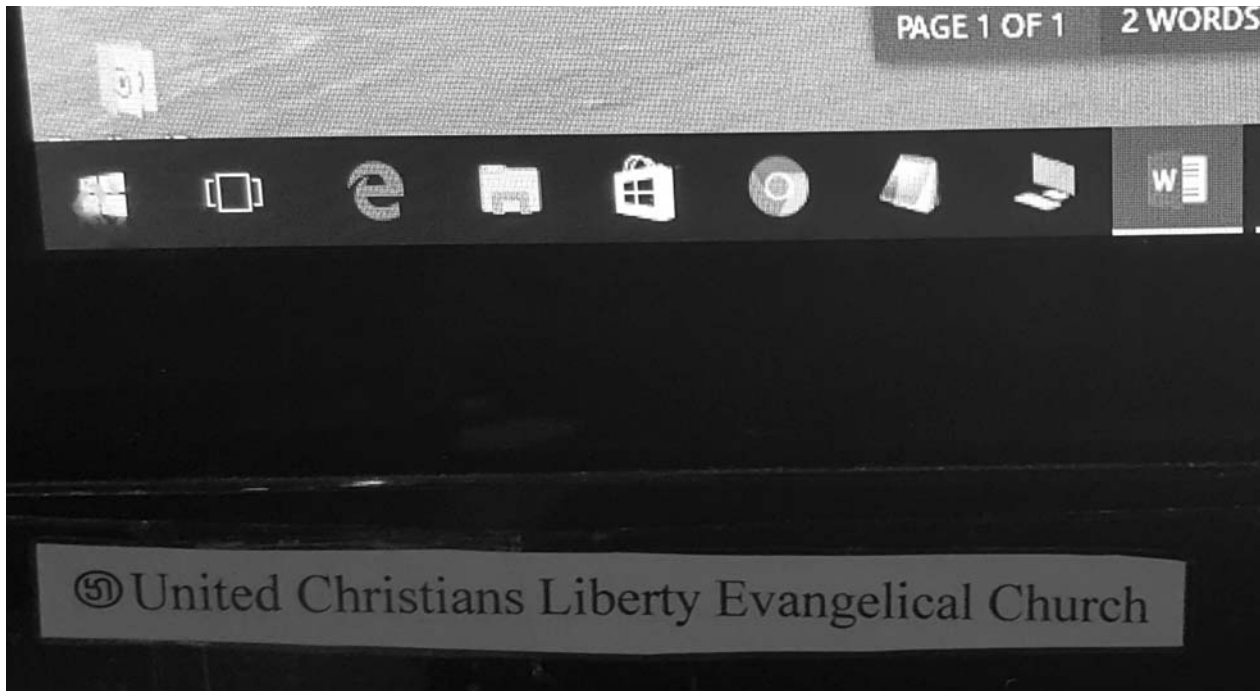

Figure 12. An example of CIRCLED CA in use on a label affixed to a computer monitor owned by the United Christians Liberty Evangelical Church.

A. Administrative

1. Title

Preliminary proposal for encoding the Nyiakeng Puachue Hmong script in the UCS

2. Requester's name

UC Berkeley Script Encoding Initiative (Universal Scripts Project)

3. Requester type (Member body/Liaison/Individual contribution)

Liaison contribution.

4. Submission date

2016-01-22

5. Requester's reference (if applicable)

6. Choose one of the following:

6a. This is a complete proposal

Yes.

6b. More information will be provided later

No.

B. Technical – General

1. Choose one of the following:

1a. This proposal is for a new script (set of characters)

Yes.

1b. Proposed name of script

Nyiakeng Puachue Hmong.

1c. The proposal is for addition of character(s) to an existing block

No.

1d. Name of the existing block

2. Number of characters in proposal

71.

3. Proposed category (A-Contemporary; B.1-Specialized (small collection); B.2-Specialized (large collection); C-Major extinct; D-Attested extinct; E-Minor extinct; F-Archaic Hieroglyphic or Ideographic; G-Obscure or questionable usage symbols)

Category A.

4a. Is a repertoire including character names provided?

Yes.

4b. If YES, are the names in accordance with the "character naming guidelines" in Annex L of P&P document?

Yes.

4c. Are the character shapes attached in a legible form suitable for review?

Yes.

5a. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for publishing the standard?

Michael Everson via the Rev. Chervang Kong

5b. If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools used:

Michael Everson, Fontographer.

6a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided?

Yes.

6b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached?

No.

7. Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)?

Yes.

8. Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script.

See above.

C. Technical – Justification

1. Has this proposal for addition of character(s) been submitted before? If YES, explain.

No.

2a. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?

Yes.

2b. If YES, with whom?

Chervang Kong, Macie Chervunkong

2c. If YES, available relevant documents

3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?

Contemporary cultural use by Hmongs and historians of Hmong culture.

4a. The context of use for the proposed characters (type of use; common or rare)

Somewhat rare.

4b. Reference

5a. Are the proposed characters in current use by the user community?

Yes.

5b. If YES, where?

In the US.

6a. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP?

No.

6b. If YES, is a rationale provided?

6c. If YES, reference

7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?

Yes.

8a. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?

No.

8b. If YES, is a rationale for its inclusion provided?

8c. If YES, reference

9a. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?

No.

9b. If YES, is a rationale for its inclusion provided?

9c. If YES, reference

10a. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character?

No.

10b. If YES, is a rationale for its inclusion provided?

10c. If YES, reference

11a. Does the proposal include use of combining characters and/or use of composite sequences (see clauses 4.12 and 4.14 in ISO/IEC 10646-1: 2000)?

No.

11b. If YES, is a rationale for such use provided?

11c. If YES, reference

11d. Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided?

No.

11e. If YES, reference

12a. Does the proposal contain characters with any special properties such as control function or similar semantics?

No.

12b. If YES, describe in detail (include attachment if necessary)

13a. Does the proposal contain any Ideographic compatibility character(s)?

No.

13b. If YES, is the equivalent corresponding unified ideographic character(s) identified?
