Eduardo Marin Silva submitted a proposal for some symbols and punctuations used in DPRK, which included the emphasized hangul syllables used for the names of the DPRK's leaders. The submitter suggested using SVSes on this issue. According to L2/18-011 by Jaemin, the emphasized GIM for Kim Il-sung, the emphasized GIM for Kim Jong-il, the emphasized GIM for Kim Jong-un, the emphasized IL for Kim Il-sung the emphasized IL for Kim Jong-il, the emphasized JEONG for Kim Jong-il and the emphasized JEONG for Kim Jong-un were encoded separately by PUA on KPS 9566.

It looks better to do as below, if these sequences are used for the DPRK usage exactly.

김	AE40	HANGUL SYLLABLE GIM
김	AE40 FE00	EMPHASIZED HANGUL SYLLABLE GIM FOR KIM IL-SUNG
김	AE40 FE01	EMPHASIZED HANGUL SYLLABLE GIM FOR KIM JONG-IL
김	AE40 FE02	EMPHASIZED HANGUL SYLLABLE GIM FOR KIM JONG-UN
성	C131	HANGUL SYLLABLE SEONG
성	C131 FE00	EMPHASIZED HANGUL SYLLABLE SEONG FOR KIM IL-SUNG
은	C740	HANGUL SYLLABLE EUN
은	C740 FE00	EMPHASIZED HANGUL SYLLABLE EUN FOR KIM JONG-UN
일	C77C	HANGUL SYLLABLE IL
일	C77C FE00	EMPHASIZED HANGUL SYLLABLE IL FOR KIM IL-SUNG
일	C77C FE01	EMPHASIZED HANGUL SYLLABLE IL FOR KIM JONG-IL
정	C815	HANGUL SYLLABLE JEONG
정	C815 FE00	EMPHASIZED HANGUL SYLLABLE JEONG FOR KIM JONG-IL
정	C815 FE01	EMPHASIZED HANGUL SYLLABLE JEONG FOR KIM JONG-UN

On my opinion, the submitter should provide the information about whether DPRK needs these encoded sequences at first, because these emphasized forms aren't needed for other countries and regions.

The second method on this issue is new and interesting, but we need to know if DPRK would use this technology as well.

I suggest UTC not do anything on this part before clearing the situation for DPRK.
