This is a request to add one unencoded CJK ideograph to UAX #45 as a U-source ideograph. This is a candidate for encoding in a future version of the Unicode Standard, and will be separately submitted to the IRG.

The table below shows the proposed character, along with its metadata, source, and a suggested UTC reference.

Suggested reference	Glyph	IDS	kRSUnicode	kTotalStrokes	Source
UTC-03167		 𪛗	142.6	12	标准电码本(修订本), 1983 (Standard Telegraph Codebook (revised)) #5831

The evidence for this character is on the next page.
