

Re: Ad hoc responses on emoji  
 From: Mark Davis (recorded from meeting)  
 Date: 24-01-2018

The following are notes from the ad hoc regarding public feedback.

Paper: We are doing a single chess piece. Because they are widely supported in current fonts, unlikely to have problems.	General	
Cowan: Holding off on Poison. (Note: the skull and crossbones is already emoji, with different presentation.)	General	
Corbett: Remove some Extended_Pictographic: U+2686 to U+2689, U+1F540 to U+1F545, and U+1F900 to U+1F90B	Property	Need action
Modify text of UTS 51 for comments from Nonaka (soften the language on "Ideally, implementations should", and remove examples 1-4), and Joel Bradshaw: (Change to: "...because black (or very dark brown) hair is widespread among people every skin tone...)	UTS 51	Need action
Charlotte Buff: use order modifier/vs, hair, gender/profession, direction	UTS 51	Need action
1F9A0 MICROBE CLDR add keywords: bacteria, virus, amoeba; UCD add "microorganism intended to cover bacteria, virus, amoeba..."	Annotations	Need action
For additional characters, would need to have proposals
