

Dear Ken:

Thanks for your e-mail RE: Hangeul strokes (L2/22-115) dated 2022-06-18.

This is my personal opinion.

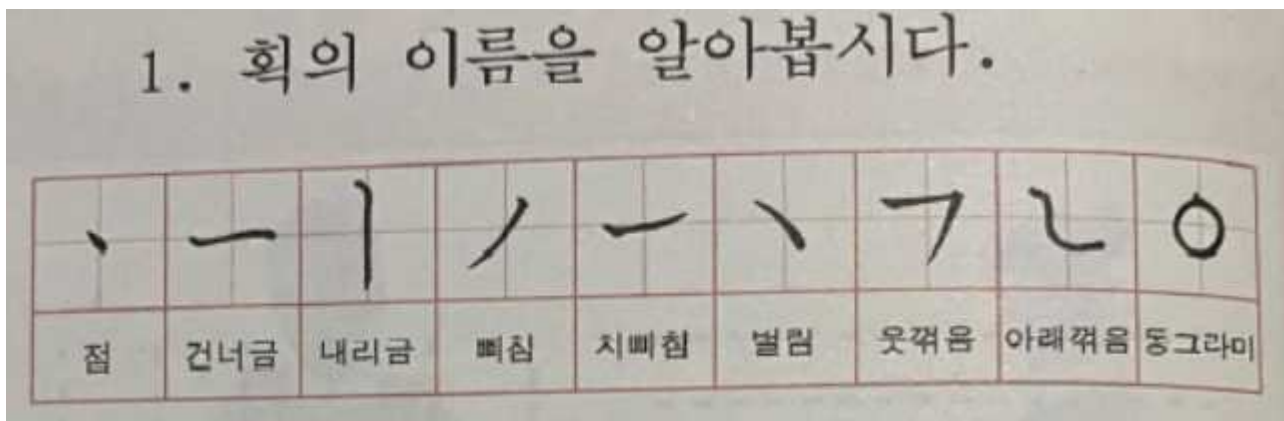

- 1) I have never seen the set of the so-called 9 Hangeul strokes before.  
- Naturally, the Hangeul names of the so-called Hangeul strokes are quite strange to me.
- 2) You cannot see the set of the so-called 9 Hangeul strokes in the textbook for elementary schools published in Rep. of Korea.
- 3) I don't know the situation in DPRK exactly. However, I am quite sure that the situation in DPRK would be the same as in Rep. of Korea.
- 4) Based on the observations 1) to 3) shown above, I strongly suggest not to include the so-called "Hangeul strokes" in UCS (NamesList.txt and ScriptExtensions.txt).

Thanks.

Regards,

KIM, Kyongsok, gimgs@pusan.ac.kr
