**Doc Type: Working Group Document** 

Title: Proposal to encode the GUARANI SIGN and the AUSTRAL SIGN in the UCS

**Source:** Michael Everson

**Status: Individual Contribution** 

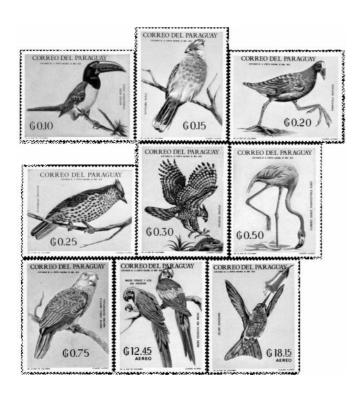

Action: For consideration by JTC1/SC2/WG2 and UTC

Date: 2003-02-24

Discussion on the Unicode e-mail list has brought to light the existence of two additional currency symbols. The Paraguayan guaraní can be represented with its ISO 4217 code PYG, or by the abbreviation G. or Gs. But it also has its own symbol, shown below and on some postage stamps. The stroke through the G is sometimes vertical, and sometimes inclined. The former Argentianian currency, the austral, also had its own symbol, likewise shown on postage stamps below.

20B2 GUARANI SIGN

20B3 A AUSTRAL SIGN

## A. Administrative

1. Title

Proposal to encode the GUARANI SIGN and the AUSTRAL SIGN in the UCS.

2. Requester's name

Michael Everson

3. Requester type (Member body/Liaison/Individual contribution) Individual contribution.

4. Submission date

2003-02-24

- 5. Requester's reference (if applicable)
- 6. Choose one of the following:
- 6a. This is a complete proposal

Yes.

6b. More information will be provided later

No.

## **B.** Technical -- General

1. Choose one of the following:

1a. This proposal is for a new script (set of characters)

No

Proposed name of script

1b. The proposal is for addition of character(s) to an existing block

Yes.

1b. Name of the existing block

Currency Symbols.

2. Number of characters in proposal

2

3. Proposed category (see section II, Character Categories)

Category A.

4a. Proposed Level of Implementation (1, 2 or 3) (see clause 14, ISO/IEC 10646-1: 2000)

Level 1

4b. Is a rationale provided for the choice?

Yes.

4c. If YES, reference

Spacing characters.

5a. Is a repertoire including character names provided?

Yes

5b. If YES, are the names in accordance with the character naming guidelines in Annex L of ISO/IEC 10646-1: 2000? Yes.

5c. Are the character shapes attached in a legible form suitable for review?

Yes

6a. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for publishing the standard?

Michael Everson.

**6b.** If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools used: Michael Everson, Fontographer.

7a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided?

Nο

7b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached?

Yes.

8. Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)?

No.

9. Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at http://www.unicode.org for such information on other scripts. Also see Unicode Character Database http://www.unicode.org/Public/UNIDATA/UnicodeCharacterDatabase.html and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

The characters should have the same properties as other currency signs.

## C. Technical -- Justification

1. Has this proposal for addition of character(s) been submitted before? If YES, explain.

No.

2a. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?

No. Well, other experts proposed the characters on the Unicode list.

2b. If YES, with whom?

2c. If YES, available relevant documents

3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?

Paraguayans and Argentinians among others. The austral is a former currency of Argentina.

4a. The context of use for the proposed characters (type of use; common or rare)

To represent the guaraní and austral currencies in monetary amounts.

4b. Reference

5a. Are the proposed characters in current use by the user community?

Yes and no.

5b. If YES, where?

General use for the guaraní. Historical use for the austral.

6a. After giving due considerations to the principles in Principles and Procedures document (a WG 2 standing document) must the proposed characters be entirely in the BMP?

Yes. Positions U+20B2 and U+20B3 are proposed.

6b. If YES, is a rationale provided?

Yes.

6c. If YES, reference

Keep with other currency signs.

7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?

8a. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?

No.

8b. If YES, is a rationale for its inclusion provided?

8c. If YES, reference

9a. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?

No.

9b. If YES, is a rationale for its inclusion provided?

9c. If YES, reference

10a. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character?

No.

10b. If YES, is a rationale for its inclusion provided?

10c. If YES, reference

11a. Does the proposal include use of combining characters and/or use of composite sequences (see clauses 4.12 and 4.14 in ISO/IEC 10646-1; 2000)?

No.

11b. If YES, is a rationale for such use provided?

11c. If YES, reference

12a. Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided?

No.

12b. If YES, reference

13a. Does the proposal contain characters with any special properties such as control function or similar semantics?

Νo.

13b. If YES, describe in detail (include attachment if necessary)

14a. Does the proposal contain any Ideographic compatibility character(s)?

No

14b. If YES, is the equivalent corresponding unified ideographic character(s) identified?
