

**ISO/IEC JTC1/SC2/WG2
Coded Character Set
Secretariat: Japan (JISC)**

Doc. Type: Draft disposition of comments

Title: Draft disposition of comments on SC2 N 4078 (PDAM text for Amendment 8 to ISO/IEC 10646:2003)

Source: Michel Suignard (project editor)

Project: JTC1 02.10646.00.08

Status: For review by WG2

Date: 2009-10-01

Distribution: WG2

Reference: SC2 N4078, 4087

Medium: Paper, PDF file

Comments were received from Germany, Greece, Ireland, Japan, United Kingdom, and USA. The following document is the draft disposition of those comments. The disposition is organized per country.

Note – The full content of the ballot comments have been included in this document to facilitate the reading. The dispositions are inserted in between these comments and are marked in **Underlined Bold Serif text**, with *explanatory text in italicized serif*.

Germany: Positive with comments

(The German vote was first accounted as Disapproval with comments in SC2 N4087, but a consequent communication with SC2 secretariat (message dated Sep 22nd 2009) changed it to Approval with comments.)

(Technical and Editorial comments are interspersed in the ballot from Germany. Their type is identified by the header T for Technical and E for Editorial.)

E1. Emoji symbols in general:

Germany requests that, if the annotations keeping the reference to the Emoji sources will be retained in the future standard of all, do not simply be of the form "= e-xxx". To be recognized when a symbol is cited in isolation, or when searching the annotations, they must have a unique constant component, e.g. "Emoji". This request could e.g. be fulfilled by following annotation forms:

" = Emoji e-xxx"

" · represents Emoji e-xxx (DoCoMo #yyy, KDDI #zzz, Softbank #www)"

(the parts "DoCoMo #yyy" etc. only being present when the symbol is in fact listed in that source)

" · represents [telco] Emoji #xxx"

([telco] being one of DoCoMo, KDDI, Softbank; up to three different annotations of this form when applicable)

Propose acceptance in principle

The annotation with reference to the Emoji sources are only for bookkeeping during the amendment process in order to track reallocation of character code positions between amendment phases. They will be removed when the amendment is published. Note that the US in its comments T.3.e is asking to incorporate Emoji source data as a linked data file. This will satisfy in principle the German requirement.

T1. Emoji symbols in general

For all symbols whose name ends in "-<digit>" and whose representative glyph is hatched, like: U+1F34E APPLE-1 Germany suggests the intended differentiation of colors to get clarified (by name change or annotation).

It is proposed to give an annotation like:

- heraldic hatching indicates color suggestion for certain applications

to be added to all characters which get multiple encoding for the reason of color differentiation.

Propose acceptance in principle

See also comment E.3 from Ireland. Instead of an annotation per character, a note will be added at the head of the block.

T2. U+A7A0 ff: (Latin Extended-D)

Germany requests the inclusion of the 10 Latin letters for pre-1921 Latvian orthography, as described in N3587.

WG2 discussion

This is part of a block with characters addition in this amendment.

E2. U+1F170 ff., negative squared letters; U+1F179 ff., white on black squared letters:

There is a confusion between the terms "Negative squared ..." and "White on Black squared ..." which both actually indicate the same thing. We propose to put all relevant characters under the "Negative squared ..." heading. The statement "The square edges may be slightly rounded." belongs to this complete heading.

Propose acceptance in principle

For consistency with other similar groups, the term 'White on black squared Latin letters' will be used as the overall header. In other words, the header text between 1F171 and 1F179 will be moved and replace the header text in front of 1F170.

T3. U+1F30F EARTH GLOBE ASIA-AUSTRALIA:

Germany requests the two other earth globe characters contained in document N3607 = L2/09-114 to be retained:

U+1F30E EARTH GLOBE EUROPE-AFRICA

U+1F310 EARTH GLOBE AMERICAS

It is obvious that such earth globe symbols are used in contexts beyond Emoji (e.g. all three globes are contained in Microsoft's Webdings font). Encoding one of the globes one is cultural biasing.

Propose acceptance in principle

Also part of comment T.6 from Ireland, but at different location (1F30D and 1F30E).

T4. U+1F368 ICE CREAM:

Germany requests a name change into something like

U+1F368 CUP WITH ICE CREAM,

or

U+1F368 ICE CREAM IN DISH WITH SPOON

to show the difference to the other proposed ice cream symbols, and to an ICE-CREAM CONE which may be proposed separately.

WG2 discussion

The other ice cream related symbols are called 'SOFT ICE CREAM and SHAVED ICE'. They do not describe precisely content and container as suggested. At the same time, it is true that ICE-CREAM is very often served on cone.

E3. U+1F38E GIRLS DOLL FESTIVAL; U+1F391 MOON VIEWING CEREMONY:

For these characters, Germany requests the addition of an informative note like:

· Japanese.

Propose acceptance in principle

The comment T.5 from Ireland requests a name change and new annotation for 1F38E such as:

1F38E JAPANESE DOLLS

= Japanese Hinamatsuri girls' festival

In the same line a new annotation could be added for 1F391:

1F391 MOON VIEWING CEREMONY

= Japanese Otsukimi harvest celebration

T5. U+1F3A0 ff., entertainment symbols:

The naming of the symbols are inconsistent as most of them are the names for the things pictured, while others are the names of abstract concepts to be denoted by the things. As the pattern for selecting this seems random, it is proposed to use the names of the pictured things throughout, except for U+1F3AD PERFORMING ARTS.

However, it seems appropriate to preserve the denoted abstract concepts as alternative names. Thus, Germany requests the following name changes and additional annotations:

U+1F3A3 FISHING ROD WITH FISH

= fishing

U+1F3A5 MOVIE PROJECTOR

= movies

(if the glyph is changed to a movie camera as possibly proposed by others, then the name has to be U+1F3A5 MOVIE CAMERA)

U+1F3A8 ARTISTS PALETTE (not PALLET - see Wikipedia)

= art

U+1F3AA CIRCUS TENT

= event

Propose acceptance in principle

See comment T5 from Ireland. That comment proposes 1F3A3 FISHING POLE AND FISH (original name was FISHING); it also proposes to change the glyph and name for 1F3A5 to be MOVIE CAMERA. Same request as above for 1F3A8. The request for 1F3AA is unique to Germany but consistent with others.

E4. U+1F3AB TICKET:

Typo in the informative note, should be: "indicate*s* an event"

Accepted

T6. U+1F3E6 BANK:

The glyph does not match the building structure of the adjacent characters. Germany requests a glyph change showing a building structure like the adjacent characters.

Propose acceptance

Also part of comment E3 from Ireland.

T7. U+1F3E7 ATM:

Germany requests name be changed to U+1F3E7 AUTOMATIC TELLER MACHINE. It seems inappropriate to use an abbreviation as name.

Propose acceptance in principle

See also comment E2 from Ireland (request for annotation). Though the name should be AUTOMATED TELLER MACHINE.

T8. U+1F3EC DEPARTMENT STORE:

Germany suggests a glyph change:

The style has to be kept in line with the other symbols for buildings.

Propose acceptance

See also comment E3 from Ireland.

E5. U+1F3ED FACTORY:

Germany requests the addition of two annotations:

= industrial production site

= date of production

Propose acceptance

T9. U+1F3F0 WESTERN CASTLE:

Germany suggests a name change:

U+1F3F0 EUROPEAN CASTLE

Propose acceptance

T10. U+1F420 CAMEL:

Germany requests a name change:

U+1F420 DROMEDARY CAMEL (or DROMEDARY)

If the glyph is changed to show a Bactrian (two-bumped) camel, as possibly proposed by others, the requested name is:

U+1F420 BACTRIAN CAMEL

Additionally, Germany suggests to retain both symbols contained in document N3607 = L2/09-114 to be retained:

U+1F420 DROMEDARY CAMEL (originally proposed as 1F430)

U+1F43E BACTRIAN CAMEL (originally proposed as 1F431)

Propose acceptance in principle

See also comments T7 and T8 from Ireland. The alternative is to have either:

1F420 CAMEL

= bactrian camel (two humps)

= e-1D6

1F43E DROMEDARY

= dromedary camel (single hump)

Or

1F420 BACTRIAN CAMEL

** commonly called camel (two humps)*

= e-1D6

1F43E DROMEDARY CAMEL

* commonly called dromedary (single hump)

The editor prefers the 1st alternative.

T11. U+1F46F WESTERN PERSON:

Germany requests a name change to

U+1F46F BLOND-HAIRED WOMANS HEAD

(or BLOND-HAIRED WOMAN if it is agreed to drop HEAD for person symbols as possibly requested by others)

Any link from a specific appearance to membership of a cultural area can be considered racist (e.g. persons of African origin which feel themselves integrated into Western culture may legitimately think so). Thus, such naming is to be avoided, as it was done with other names of Emoji during the discussions predating PDAM8, and the term "western" is inappropriate.

Also, the use of PERSON is not consistent with other Emoji names where "woman" and "man" are used. The fact that Emoji e-184 can also be used for a man is a special unification of the original vendor's character sets which has not to be perpetuated in Unicode, as Unicode is not ruled by the same principles.

While the editors of the Emoji list presumably can change their unifications within their own dominion, Unicode has stability politics; thus if the unification is introduced into Unicode, it cannot be adjusted later. The fact that one vendor uses e-184 for a blonde man's head is suggested to be stated in an informative note:

· One of the sources for e-184 shows a blonde man's head

Germany also suggests that a BLOND-HAIRED MANS HEAD is also encoded, like it was included in the document N3607 = L2/09-114. This can be accompanied to a note like:

· Suited for SoftBank's representation of Emoji e-1A4 (Softbank Emoji #290)

WG2 discussion

It seems that the use of e-184 in the text is incorrect, e-1A4 is probably meant. The editor is totally opposed to have two entries with the same Emoji cross reference (in this case e-1A4).

E6. U+1F4AE ff., School grade symbols:

Germany requests a caption change:

The symbols under this heading are not "school grade symbols" but – essentially – *Japanese* school grade symbols. Therefore a change of the caption into "Japanese school grade symbols" is requested.

Propose acceptance

T12. U+1F4B1 CURRENCY EXCHANGE:

Germany requests the glyph of this character to show a banknote and some coins, to meet the expectations of the international average recipient.

Propose acceptance

Also part of comment E5 from Ireland.

T13. U+1F4B2 HEAVY DOLLAR SIGN:

Germany requests this symbol to be relocated into the Dingbats block, to U+27B0 or another free place there.

Thus, all separately encoded "heavy" variants of common characters are found within the Dingbats block.

Propose acceptance

The only caveat is that the first column does not contain heavy symbols, but the more appropriate columns are full. This move has not been acted on yet.

T14. U+1F4BB COMPUTER:

Germany considers this character misnamed, as the representative glyph definitely does not show a computer. (This was confirmed e.g. in a discussion at the last SC35/WG1 meeting in Saskatoon when this symbol was examined in search of specific symbols for keyboard functions. This example proves that Emoji symbols are considered in totally different contexts as soon as encoded.)

Germany requests a name change to:

U+1F4BB COMPUTER MONITOR WITH KEYBOARD AND MOUSE

Germany would accept alternatively:

U+1F4BB COMPUTER WORKSTATION

U+1F4BB COMPUTER WORKPLACE

WG2 discussion

There are for sure many computers that look exactly like the picture; it is not uncommon to have the main unit integrated in the display or in the keyboard. In many other cases the main unit is hidden, leaving the monitor, keyboard, and mouse to represent the concept of a computer set on a desktop. At the same time 'COMPUTER WORKSTATION' or 'DESKTOP COMPUTER' could be acceptable to differentiate from a laptop computer picture.

E7. U+1F4B0 MONEY BAG:

Germany requests the annotation:

- Glyph may show any currency symbol instead of a dollar sign

Propose acceptance

E8. U+1F4D6 OPEN BOOK:

Germany requests the annotations:

= read operator's manual

- similar to ISO/IEC 7000-0790 "Read operator's manual"

Propose acceptance

E9. U+1F4E8 E-MAIL SYMBOL:

Germany requests the annotation:

- Glyph may show a @-symbol instead of an E

Propose acceptance

T15. U+1F4EA ENVELOPE WITH ARROW:

Germany requests a name change:

U+1F4EA ENVELOPE WITH BLACK DOWN-POINTING ARROW ABOVE

It cannot be excluded that in the due process of standardizing office symbols and icons, there may emerge other combinations of envelopes and arrows. Therefore, the name has to be exact.

Propose acceptance in principle

The name ENVELOPE WITH DOWNWARDS ARROW ABOVE is suggested instead (consistent with name formed in a similar fashion such as 1F508 TOP WITH UPWARDS ARROW ABOVE).

T16. U+1F4EB MAILBOX; U+1F4EC MAILBOX WITH RAISED FLAG:

Germany requests a name change:

U+1F4EB OPEN MAILBOX WITH LOWERED FLAG

U+1F4EC CLOSED MAILBOX WITH RAISED FLAG

It cannot be excluded that the other combinations will be encoded in the future; e.g. the widespread Microsoft Wingdings font contains all four combinations.

Moreover, the FLAG in the name associates the US-style mailbox form for U+1F4EB.

In fact, Germany suggests including the whole set from the beginning on, by adding the following two characters:

U+1F4xx OPEN MAILBOX WITH RAISED FLAG

U+1F4yy CLOSED MAILBOX WITH LOWERED FLAG

WG2 discussion

The two name changes make sense. Having CLOSED MAILBOX WITH LOWERED FLAG is also sensible. Therefore having all four like in the Wingdings font may be ok.

T17. U+1F4F1 PHONE WITH ARROW:

Germany requests a name change:

U+1F4F1 MOBILE PHONE WITH BLACK RIGHT-POINTING ARROW LEFT

It cannot be excluded that in the due process of standardizing office symbols and icons, there may emerge other combinations of phones and arrows. Therefore, the name has to be exact.

Propose acceptance in principle

The comment T7 from Ireland also asks to insert 'MOBILE' in front of PHONE. A possible name could be MOBILE PHONE WITH RIGHTWARDS ARROW LEFT, using the same rules as in T15.

T18. U+1F4FC SPEAKER WITH CANCELLATION STROKE; U+1F4FD SPEAKER; U+1F4FE SPEAKER WITH ONE SOUND WAVE; U+1F4FF SPEAKER WITH THREE SOUND WAVES:

Germany suggests a name change:

U+1F4FC BLACK SPEAKER WITH CANCELLATION STROKE

U+1F4FD BLACK SPEAKER

U+1F4FE BLACK SPEAKER WITH ONE SOUND WAVE

U+1F4FF BLACK SPEAKER WITH THREE SOUND WAVES

to get unique names for the case that function symbols employing white (hollow) speaker depictions will be standardized in the future (e.g. by SC35).

WG2 Discussion

Not clear whether these depictions should be dis-unified, including one set of variant which does not exist today.

T19. U+1F51C DIM SCREEN SYMBOL; U+1F51D BRIGHT SCREEN SYMBOL:

Germany requests a name change for these symbols.

Function names and symbols are the domain of SC35, where there is ongoing work on that subject.

It is possible that other symbols will be standardized for the "Dim Screen" and "Bright Screen" functions (as SC35 work is more guided by ergonomic research than by history of use). SC2/WG2 is asked not to anticipate such standardization. Germany suggests:

1F51C LOW BRIGHTNESS SIGN

1F51D HIGH BRIGHTNESS SIGN

which denote states or outcomes, rather than functions.

However, as the surrounding symbols are named according to their appearance, Germany would also accept a naming guided by that principle, as:

U+1F51C WHITE CIRCLE SURROUNDED BY SHORT RAYS

· Similar to ISO/IEC 13251-053 = IEC 60417-1-5056 "Brightness; brilliance"

· Used as a non-standardized dim screen symbol on some devices

-> 263C WHITE SUN WITH RAYS

-> 26ED GEAR WITHOUT HUB

U+1F51D WHITE CIRCLE SURROUNDED BY RAYS

· Similar to IEC 60417-1-5552 "Colour temperature: natural light"

· Used as a non-standardized bright screen symbol on some devices

(Note: a naming "... BY LONG RAYS" seems inappropriate, as the rays are at most "medium-length".)

WG2 Discussion

If the names are to be changed, the first option seems preferable:

1F51C LOW BRIGHTNESS SIGN

1F51D HIGH BRIGHTNESS SIGN

T20. U+1F533 SIX POINTED STAR WITH MIDDLE DOT:

Germany requests to move this character to U+2B4F (near U+2B50 WHITE MEDIUM STAR) or another place in the "Miscellaneous Symbols and Arrows" block, as this is the appropriate place for abstract star characters.

WG2 Discussion

No preference.

T21. U+1F536 BLACK ROUNDED SQUARE, U+1F537 WHITE ROUNDED SQUARE:

Germany requests name changes, as these symbols have an internal structure and are not simply geometric shapes. Thus, also the header for these symbols has to be changed. Germany suggests the names:

U+1F536 BLACK SQUARE BUTTON

U+1F537 WHITE SQUARE BUTTON

This is in accordance with the SoftBank source where the symbols are called ボタン (button).

Propose acceptance

T22. U+1F538 ... U+1F543, Geometric shapes and User interface symbols:

Germany suggests these 10 symbols to be moved to the "Miscellaneous Symbols and Arrows" block, occupying the places 2B5A...2B63 or another sequence in that block. This is the appropriate place for geometric shapes, as it already contains a lot of those. This applies also for the four characters now headed under "User Interface symbols". It is suggested that this heading is also used for the four last symbols of the sequence at the new position.

WG2 Discussion

No preference.

T23. U+1F560 ff., Emoji compatibility symbols:

Germany votes against the inclusion of 10 new Emoji compatibility symbols, if such is requested by the US NB or others. However, Germany requests to fulfill the intent of these symbols by accepting the proposal N3680 Proposal to encode Symbols for ISO 3166 Two-letter Codes in the UCS", and suggests to include the character set proposed there into PDAM8.

Noted

Strictly speaking, this is not part of the ballot, but a feedback to another NB comment. See disposition of comment T1.d from USA.

T24. U+1F6AB NO ENTRY SIGN:

Germany requests a name change into something which does not contain "entry", like

U+1F6AB SIGN INDICATING NO

because this glyph indicates "no" in far more instances than "no entry" only. In addition, the annotation is suggested:

-> 20E0 COMBINING ENCLOSING CIRCLE BACKSLASH

Propose acceptance in principle

The editor would prefer a name such as 'SIGN INDICATING FORBIDDEN ACTIVITY'; 'NO' on its own is ambiguous.

E10. U+1F70A ALCHEMICAL SYMBOL FOR VINEGAR:

Germany requests to delete the annotation "+ plus sign", as this is plainly misleading.

Propose acceptance

T25. U+1F759 ALCHEMICAL SYMBOL FOR BRICK:

Germany requests a clear glyph for this character.

Propose non acceptance

As presented in WG2 N3584, the glyph is a black rectangle, including the historic evidence shown page 7. Unless strong evidence to the contrary is shown by Germany, there is no reason to switch to a clear glyph.

E11. U+1F75E ALCHEMICAL SYMBOL FOR SUBLIMATION:

Germany requests the deletion of the annotation "260A ascending node", as this is irritating. Instead, Germany suggests an annotation "-> 264E LIBRA" instead, due to the similarity of the glyph.

Propose partial acceptance

There is nothing 'irritating in creating a reference between 1F75E ALCHEMICAL SYMBOL FOR SUBLIMATION and 260A ASCENDING NODE when the document WG2 N3584 (basis for these additions) describes 260A as the symbol for Sublimate. While not opposed to the addition of a cross reference to 264E LIBRA, this represents purely a glyph similarity between a zodiacal sign (Libra) and a chemical process.

E12. U+1F772 ALCHEMICAL SYMBOL FOR HALF DRAM:

= drachma semis

This sign is actually a ligature of 'Drachma' or dram sign (encoded as U+0292 LATIN SMALL LETTER EZH) and a "semis" sign similar to "ß", rendered in a scriptive style.

Therefore, Germany requests the annotations:

-> 0292 LATIN SMALL LETTER EZH

-> 00DF LATIN SMALL LETTER SHARP S

Propose partial acceptance

Adding the reference to 0292 LATIN SMALL LETTER EZH makes sense, given that 0292 already is aliased to 'dram'. It is however unclear whether there is any correlation between Semis (Half) and the German Eszett.

E13. U+1F773 ALCHEMICAL SYMBOL FOR HALF OUNCE:

= uncia semis

This sign is actually a ligature of $\frac{1}{2}$ 2125 and a "semis" sign similar to "ß", rendered in a scriptive style.

Therefore, Germany requests the annotations:

-> 2125 OUNCE

-> 00DF LATIN SMALL LETTER SHARP S

Propose partial acceptance

Similarly to comment E12, adding the reference to 2125 OUNCE makes sense. It is however unclear whether there is any correlation between Semis (Half) and the German Eszett.

Greece: Negative

(Greece did not mention whether the comments were technical or editorial, nevertheless, given that they all relate to character name issues, they are deemed to be technical)

Technical comments

The characters mentioned in the Greek National Body comments come from a proposal by the Thesaurus Linguae Graecae.

The proposal in which the characters were proposed is found at:

<http://repositories.cdlib.org/cgi/viewcontent.cgi?article=1014&context=tlg> , dated Oct. 2003 (identical to the following WG2 doc: <http://std.dkuug.dk/jtc1/SC2/wg2/docs/n2642.pdf>).

This resulted in their addition in ISO/IEC 10646:2003 Amendment 1 in 2005. Commenting on these characters is out of scope as ballot comment for Amendment 8. Only highlighted characters which are additions and are also mentioned in page 2 of PDAM8 should be commented.

T1. Wrong transcription of “CORONIS”

Change it to “KORONIS”

Propose out of scope

This concerns 2E0E EDITORIAL CORONIS. Note that per WG2 principle and procedure, character names cannot be changed once created. However annotation can be inserted in the chart pages. For example, this character already has the following annotation:

→ IBFD greek koronis

This character, as well as the other ones mentioned in comments T2-T4, were described in

<http://std.dkuug.dk/jtc1/SC2/wg2/docs/n2642.pdf> . The proposal had a note for that new character:

“Note: name ‘Editorial Coronis’ used to distinguish character from IFBD (Greek Koronis)”.

T2. Wrong transcription of “HYPODIASTOLE”

Change it to “YPODIASTOLI”

Propose out of scope

This concerns 2E12 HYPODIASTOLE. Note that per WG2 principle and procedure, character names cannot be changed once created. However annotation can be inserted in the chart pages. For example, the following annotation could be added:

= ypodiastoli

This character is also discussed in: Turner, E.G. & Parsons, P.J. Greek Manuscripts of the Ancient World (London, 1987) p. 11.

T3. OBELOS

We don't know where you have found the name “OBELOS” However, we do recognise the symbol ÷, the first glyph variant you present.

Propose out of scope

This concerns 2E13 DOTTED OBELOS. The term ‘Obelos’ can be easily searched on Internet. A common definition is: “The obelos symbol gets its name from the spit or sharp end of a lance”.

In the context of the N2642 proposal, the text was: “Obelos: See McNamee 37” [for a complete list [of variants].

This refers to: McNamee, K., Sigla and Select Marginalia in Greek Literary Papyri. (Papyrologica Bruxellensia 26) (Brussels, 1992).

T4. ANCORA

We don't know where you have found the name “ANCORA”. Perhaps you mix it with something else, very rare, like “ANGYRA”.

Propose out of scope

This concerns 2E15 UPWARDS ANCORA. The term is also in McNamee, p 11, as mentioned in N2642.

Ireland: Negative

Ireland **disapproves** the draft with the technical and editorial comments given below.

Acceptance of these comments and appropriate changes to the text will change our vote to approval.

Although Ireland’s usual practice in presenting Technical and Editorial comments is to divide them into two sections, we have departed from this here, due to the nature of the large symbol set. Nevertheless comments are still identified with T and E.

E1 Page 19, Row 230: Miscellaneous Technical.

Ireland suggests that that, for consistency, the glyph at 23F0 be revised to be more similar to the glyphs for 23F1 and 23F2. A number of clock applications use these to identify settings for alarms, stopwatches, and timers. The glyph at 231A WATCH should similarly be harmonized.

Propose acceptance

T1. Page 25, Row 260: Miscellaneous Symbols..

With reference to ISO/IEC JTC1/SC2/WG2 N3672 “Proposal to Encode the Astronomical Symbol for Uranus” and to ISO/IEC JTC1/SC2/WG2 N3674 “Proposal for PENTAGRAM characters”, Ireland requests that the following four characters be added to PDAM 8:

26E2 ASTRONOMICAL SYMBOL FOR URANUS

26E4 PENTAGRAM

26E5 RIGHT-HANDED INTERLACED PENTAGRAM

26E6 LEFT-HANDED INTERLACED PENTAGRAM

Ireland also requests the addition of the following character be added to PDAM 8:

26E7 INVERTED PENTAGRAM

This widely-known character completes that set. An example of it alongside PENTAGRAM in Carl G. Liungman’s Tanketecken (Trondheim: Polaris, 1993):

(see SC2 N4087 for picture)

Propose acceptance

T2. Page 31, Row 2E0: Supplemental Punctuation.

Ireland requests that the character 2E32 LOOPED LENGTH MARK be moved to Row 270 Dingbats at position 27B0 with the name CURLY LOOP (removing the Supplemental Punctuation block from PDAM 8). We also propose that at 27BF a similar character, DOUBLE CURLY LOOP, be added. This second character can be mapped to the emoji character e-82B as listed in N3681.

27B0 CURLY LOOP

= kururi

= e-80B

27BF DOUBLE CURLY LOOP

= e-82B

Ireland is aware that the second character (e-82B) has been proposed to be encoded as a “compatibility” character with neither name or glyph. Ireland is fundamentally opposed to this sort of encoding, which is without precedent in the UCS and is, in our view, a mis-use of the term “compatibility”. We understand the requirement to map characters used in the emoji environment, but we are strongly opposed to any sort of “stealth encoding” or encoding of nameless, glyphless “wild cards” like this. If that door were opened, it could never be shut. As “dingbats”, the CURLY LOOP and DOUBLE CURLY LOOP are simply shapes that can be used for any purpose.

Propose acceptance

T3. Page 42, Row A72: Latin Extended-D.

Ireland reiterates its support for the character being balloted at A78F, LATIN LETTER MIDDLE DOT. We have reviewed ISO/IEC JTC1/SC2/WG2 N3678 “On the proposed U+A78F LATIN LETTER MIDDLE DOT (L2/09 - 031R = N3567)”, and we are satisfied to agree that Americanist orthographies do in fact use 00B7 MIDDLE DOT as a length mark. The transliteration character LATIN LETTER MIDDLE DOT, however, is not a length mark, but a consonant. We oppose the superficial unification based on glyph shape. The MODIFIER LETTER

HALF TRIANGULAR COLON has the wrong shape anyway, as well as a very specific use and relation to the MODIFIER LETTER TRIANGULAR COLON, and the MIDDLE DOT itself is a fairly small, colon-sized dot, whilst the Tanguit/Phags-Pa character is typically larger. In our view, the case made in N3567 “Proposal to encode a Middle Dot letter for Phags-pa transliteration” for encoding this new character is stronger than the arguments proposed against it in N3678. Ireland opposes the removal of A78F LATIN LETTER MIDDLE DOT from PDAM 8.

WG2 discussion

See also opposite view exposed in comment T.5 from USA.

T4. Page 58, Row 1F10: Enclosed Alphanumeric Supplement.

With reference to ISO/IEC JTC1/SC2/WG2 N3671 “Proposal to encode additional enclosed Latin alphabetic characters to the UCS”, Ireland requests that the 66 additional characters proposed in that document be added to PDAM 8:

1F130 SQUARED LATIN CAPITAL LETTER A

= Anreisetag (day of arrival)

≈ <square> 0041 A

1F132 SQUARED LATIN CAPITAL LETTER C

≈ <square> 0043 C

1F133 SQUARED LATIN CAPITAL LETTER D

≈ <square> 0044 D

1F134 SQUARED LATIN CAPITAL LETTER E

≈ <square> 0045 E.

1F135 SQUARED LATIN CAPITAL LETTER F

≈ <square> 0046 F

1F136 SQUARED LATIN CAPITAL LETTER G

≈ <square> 0047 G

1F137 SQUARED LATIN CAPITAL LETTER H

≈ <square> 0048 H

1F138 SQUARED LATIN CAPITAL LETTER I

≈ <square> 0049 I

1F139 SQUARED LATIN CAPITAL LETTER J

≈ <square> 004A J

1F13A SQUARED LATIN CAPITAL LETTER K

≈ <square> 004B K

1F13B SQUARED LATIN CAPITAL LETTER L

≈ <square> 004C L

1F13C SQUARED LATIN CAPITAL LETTER M

≈ <square> 004D M

1F13E SQUARED LATIN CAPITAL LETTER O

≈ <square> 004F O

1F140 SQUARED LATIN CAPITAL LETTER Q

≈ <square> 0051 Q

1F141 SQUARED LATIN CAPITAL LETTER R

≈ <square> 0052 R

1F143 SQUARED LATIN CAPITAL LETTER T

1F3E1 HOUSE WITH YARD > HOUSE WITH GARDEN
= home, house with yard (**changed annotation**)
= e-4B1

Propose acceptance in principle

The editor has corrected entries for 1F3A3 (missing previous names), 1F3A5 (incorrectly shown as 1F3AF), 1F3A8, 1F3AC (missing previous names) in accordance with the chart provided in Ireland ballot. The name change for 1F3A5 is also requested by the comment T3.a from USA. Otherwise, the changes were discussed in an ad hoc group prior to the meeting and should be acceptable after discussion within WG2.

E2 Page 64, Row 1F30: Miscellaneous Pictographic Symbols.

Ireland requests a number of annotation changes.

1F319 CRESCENT MOON
* may indicate either the first or last quarter moon (**changed annotation**)
1F340 FOUR LEAF CLOVER
~~four leafed clover~~ (**annotation deleted**)

* automated teller machine (**new annotation**)

Propose acceptance in principle

If comment T7 from Germany is accepted the annotation for 1F3E7 is not needed or at least should be changed to say 'ATM'.

T6. Page 64, Row 1F30: Miscellaneous Pictographic Symbols.

Ireland requests three character additions. These are shown below in the chart in blue-highlighted glyph cells.

1F30D EARTH GLOBE EUROPE-AFRICA
1F30E EARTH GLOBE AMERICAS
1F310 EARTH GLOBE WITH MERIDIANS
= used to indicate international input source, world clocks with time zones, etc.

Propose acceptance

The two first characters are also requested by Germany (comment T3).

E3 Page 64, Row 1F30: Miscellaneous Pictographic Symbols.

Ireland requests a number of glyph changes. The proposed changes are shown below in the chart in blue-highlighted glyph cells. In a number of cases the glyph change is related to a character name relating to the colour of the glyph in certain contexts; traditional European heraldic hatching is used to indicate the colours, and a note is proposed to appear at the head of the block:

@+ In the case of characters that are associated in typical usage with a particular colour, conventions of European heraldry are used to represent those colours in monochromatic line drawings. This aspect of the representative glyphs is informative, not normative.

1F34D PINEAPPLE
1F34E RED APPLE

1F4F1 PHONE WITH ARROW > MOBILE PHONE WITH ARROW
* making a phone call
= e-526
1F4FB VIDEO CASSETTE TAPE > VIDEOCASSETTE
= e-820

Propose partial acceptance

The editor has corrected entries for 1F47B (incorrectly shown as 1F47C), 1F4A6 (incorrect previous names), 1F4E5, and 1F4E6 ('TRAY' missing in both previous and new name) in accordance with the chart provided in the Irish ballot.

The name change for 1F420 CAMEL> BACTRIAN CAMEL is incorrect without a glyph change which should have been requested in E5 (but is not). The Irish ballot chart has it correctly. See disposition of comment T10 from Germany concerning CAMEL symbols.

Name change for 1F4AA FLEXED BICEP, also part of comment T3.a from USA.

For 1F4E5 and 1F4E6 (OUTBOX/INBOX TRAY), it is questionable whether a hyphen should be introduced in inbox and outbox (as in-box and out-box). The names without hyphen (outbox and inbox) are vastly more popular.

E4 Page 69, Row 1F40: Miscellaneous Pictographic Symbols.

Ireland requests a number of annotation changes.

1F465 BUSTS IN SILHOUETTE
= accounts (**new annotation**)

1F46F WESTERN PERSON

~~woman with blond hair~~ (**annotation deleted**)

1F4C0 DVD

= digital video disc (**new annotation**)

Propose acceptance in principle

See also comment T11 from Germany concerning 1F46F. The annotation for 1F4C0 should say: ‘= digital video/versatile disc’ to be comprehensive.

T8. Page 69, Row 1F40: Miscellaneous Pictographic Symbols.

Ireland requests a number of character additions:

1F43E DROMEDARY CAMEL

1F470 TWO MEN HOLDING HANDS

1F49F TWO WOMEN HOLDING HANDS

1F4B7 BANKNOTE WITH POUND SIGN

1F4E2 CAMERA WITH FLASH

Propose acceptance in principle

The first character is also requested by Germany (comment T10). The name for 1F43E could however be simply DROMEDARY with annotation as suggested in disposition of comment T10 from Germany.

T9. Page 69, Row 1F40: Miscellaneous Pictographic Symbols.

Ireland requests that the following characters be re-arranged in the code chart. A number of the annotations have been changed.

@ Animal symbols

1F400 RAT (moved up from 1F42D)

...

Propose acceptance in principle

Please refer to document SC2 N4087 for full details. The disposition only shows the characters for which the annotations have changed. Note that new annotations are different between T7 and T9 concerning 1F41E and 1F485 (new code positions as in this comment), in both cases the more verbose versions are considered preferred. The editor has incorporated the modified annotation in the interim chart, but not the new code positions. However, the moves are acceptable in principle as a result of disposition of all comments.

E5 Page 69, Row 1F40: Miscellaneous Pictographic Symbols.

Ireland requests a number of glyph changes. The proposed changes are shown below in the chart in blue-highlighted glyph cells.

1F400 (1F42D) RAT

Propose acceptance

Code positions content for 1F407, 1F408, 1F40A, and 1F40C have been changed and reordered to match the ballot chart and other Irish comments. Note that the ballot chart has the glyphs for the whale and the snail mixed

up. The glyph for the whale is still far from optimal. Doing a web search on whale icon gets many more acceptable outlines.

The code positions corresponding to values before applying the moves suggested by T9 are shown in parenthesis.

The entry 1F42B (1F420) BACTRIAN CAMEL is missing but is implied by the ballot chart.

See also comment T12 from Germany concerning 1F4B1.

T10. Page 75, Row 1F50: Miscellaneous Pictographic Symbols.

= e-4C8

Note in particular that we object in principle to the ballotted names of the last five characters here; “emoji” is a usage environment, and all of these graphic symbols are just that, graphic symbols. If they are to be encoded, they should be encoded with their proper names and their proper glyphs. We consider this to be an essential principle of the UCS.

Propose acceptance in principle

The editor has corrected entries for 1F50A-1F50D (shuffled), 1F515 (incorrectly shown as 1F519 and 1F508 (new name changed from TOP WITH UP-POINTING ARROW ABOVE to TOP WITH UPWARDS ARROW ABOVE to be consistent with chart and comment T12). Note also that the annotation for 1F52E is different from the annotation mentioned in T12 and the chart. Accordingly, the chart version: ‘Japanese kitchen knife’ has been retained.

Strictly speaking, the character at 1F50B could be ‘ON WITH EXCLAMATION MARK WITH LEFT RIGHT ARROW ABOVE, should the punctuation exclamation mark be captured in the name, as in many other occurrences?

E6. Page 75, Row 1F50: Miscellaneous Pictographic Symbols.

Ireland requests a number of annotation changes.

1F516 TWISTED RIGHTWARDS ARROWS

= shuffle (**new annotation**)

1F517 CLOCKWISE RIGHTWARDS AND LEFTWARDS OPEN CIRCLE ARROWS

= repeat (**new annotation**)

1F518 CLOCKWISE RIGHTWARDS AND LEFTWARDS OPEN CIRCLE ARROWS

= repeat one over and over (**new annotation**)

Propose acceptance in principle

Change for 1F516 and 1F517 are OK. Concerning 1F518, note that its full name is CLOCKWISE RIGHTWARDS AND LEFTWARDS OPEN CIRCLE ARROWS WITH CIRCLED ONE OVERLAY. A preferred annotation is suggested:

= repeat one item over

T11. Page 75, Row 1F50: Miscellaneous Pictographic Symbols.

Ireland requests a number of character additions:

= reload

1F55C CLOCK FACE ONE-THIRTY

1F55D CLOCK FACE TWO-THIRTY

1F55E CLOCK FACE THREE-THIRTY

1F55F CLOCK FACE FOUR-THIRTY

1F560 CLOCK FACE FIVE-THIRTY

1F561 CLOCK FACE SIX-THIRTY

1F562 CLOCK FACE SEVEN-THIRTY

1F563 CLOCK FACE EIGHT-THIRTY

1F564 CLOCK FACE NINE-THIRTY

1F565 CLOCK FACE TEN-THIRTY

1F566 CLOCK FACE ELEVEN-THIRTY

1F567 CLOCK FACE TWELVE-THIRTY

Propose acceptance in principle

The name for 1F519 is changed to ‘ANTICLOCKWISE DOWNWARDS AND UPWARDS OPEN CIRCLE ARROWS’ to match the chart. It also makes more sense.

The code position 1F560-1F564 are not available, they are already used. Instead the range proposed at 1F560-1F567 has been allocated in the range 1F565-1F56C. They are expected to be eventually moved somewhere else with the final disposition.

T12. Page 75, Row 1F50: Miscellaneous Pictographic Symbols.

Ireland requests that the following characters be re-arranged in the code chart. A number of the annotations have been changed.

1F191 SQUARED CL (moved up from 1F514)

= clear (**new annotation**)

= e-B84

1F192 SQUARED COOL (moved up from 1F507)

= e-B38

1F193 SQUARED FREE (moved up from 1F500)

= free postage

= e-B21

1F194 SQUARED ID (moved up from 1F513)

= identification, ID (**new annotation**)

= e-B81

1F195 SQUARED NEW (moved up from 1F505)

= e-B36

1F196 SQUARED NG (moved up from 1F503)

= e-B28

1F197 SQUARED OK (moved up from 1F502)

= e-B27

1F198 SQUARED SOS (moved up from 1F509)

= search, hunt for missing person

= e-B4F

1F199 SQUARED UP WITH EXCLAMATION MARK (moved up from 1F506)

= new information, update

= e-B37

1F19A SQUARED VS (moved up from 1F504)

= versus

= e-B32

...

1F50A TOP WITH UPWARDS ARROW ABOVE (moved down from 1F508)

= top of page

= e-B42

...

1F510F ANTICLOCKWISE DOWNWARDS AND UPWARDS OPEN CIRCLE ARROWS (moved up from 1F519)

= reload

1F510 DIM SCREEN SYMBOL (moved up from 1F51C)

1F511 BRIGHT SCREEN SYMBOL (moved up from 1F51D)

1F512 BATTERY (moved up from 1F51E)

= e-4FC

1F513 ELECTRIC PLUG (moved up from 1F51F)

= e-4FE

1F514 LEFT-POINTING MAGNIFYING GLASS (moved up from 1F520)

= search

= e-B85

1F515 RIGHT-POINTING MAGNIFYING GLASS (moved up from 1F521)

= get more details

= e-B8D

1F516 LOCK WITH INK PEN (moved up from 1F522)

= privacy

= e-B90

1F517 CLOSED LOCK WITH KEY (moved up from 1F523)

= secure

= e-B8A

1F518 KEY (moved up from 1F524)
= e-B82
1F519 LOCK (moved up from 1F54B)
= padlock in locked position
= e-B86
1F51A OPEN LOCK (moved up from 1F54C)
= e-B87
1F51B RADIO BUTTON (moved down from 1F525)
= e-B8C
1F51C BOOKMARK (moved down from 1F526)
= e-B8F

= e-4C6
1F5FE SILHOUETTE OF JAPAN (moved down from 1F563)
= e-4C7
1F5FF MOYAI (moved down from 1F564)
* Japanese stone statue like Moai on Easter Island
= e-4C8

Propose acceptance in principle

There are many discrepancies between the original list and the chart part of the ballot:

- 1F194 entry incorrectly set to 1F514 (corrected in this disposition)
- 1F50F entry missing (added as implied by chart and as accepted in comment T11)
- 1F510-1F535 entries incorrectly set (corrected according to chart)
- 1F536-1F539 entries missing (added as implied by chart)
- Instruction for the range 1F567-1F56C is missing. It can be moved back to 1F560-1F567 (as originally intended) once Mount Fuji, Tokyo Tower, etc. are moved down.

In all cases the chart has been used to determine the preferred version for the Irish ballot (except for the 1F196 entry which has the incorrect name: using 'NO GOOD' instead of 'NG').

The editor has incorporated the modified annotation in the interim chart, but only the new code positions concerning the new ranges 1F191-1F19A, 1F5FB-1F5FF, and 1F560-1F567, leaving holes in some of the released locations. However, the other moves are acceptable in principle as a result of disposition of all comments.

E7. Page 75, Row 1F50: Miscellaneous Pictographic Symbols.

Ireland requests a number of glyph changes. The proposed changes are shown below in the chart in blue-highlighted glyph cells.

1F192 (1F507) SQUARED COOL
1F193 (1F500) SQUARED FREE
1F195 (1F513) SQUARED NEW
1F196 (1F503) SQUARED NG
1F197 (1F502) SQUARED OK
1F198 (1F509) SQUARED SOS
1F199 (1F506) SQUARED UP WITH EXCLAMATION MARK
1F19A (1F504) SQUARED VS
1F500 (1F501) NO ONE UNDER EIGHTEEN SYMBOL
1F50A (1F508) TOP WITH UPWARDS ARROW ABOVE

1F50E (1F515) CLOCKWISE UPWARDS AND DOWNWARDS OPEN CIRCLE ARROWS
1F50F (1F519) ANTICLOCKWISE DOWNWARDS AND UPWARDS OPEN CIRCLE ARROWS
1F512 (1F51E) BATTERY
1F51C (1F526) BOOKMARK
1F521 (1F52A) ELECTRIC TORCH
1F525 (1F52E) HOCHO
1F52B (1F534) JAPANESE SYMBOL FOR BEGINNER
1F530 (1F538) LARGE RED CIRCLE
1F531 (1F539) LARGE BLUE CIRCLE
1F532 (1F53A) LARGE ORANGE DIAMOND
1F533 (1F53B) LARGE BLUE DIAMOND
1F534 (1F53C) SMALL ORANGE DIAMOND
1F535 (1F53D) SMALL BLUE DIAMOND

Propose acceptance in principle

All code positions have been changed and reordered to match the ballot chart. In addition, the names for 1F50A (formerly 1F508) and 1F50F (formerly 1F519) have been changed to match the chart as well, and the code positions corresponding to values before applying the moves suggested by T12 are shown in parenthesis. Strictly speaking, 1F50F (1F519) ANTICLOCKWISE DOWNWARDS AND UPWARDS OPEN CIRCLE ARROWS is a new proposed character and should not be on this list.

T13. Page 78, Row 1F6: Emoticons.

Ireland requests a number of name changes:

1F607 FACE WITH HEART SHAPED EYES > FACE WITH HEART-SHAPED EYES
= e-327

1F609 WINKING FACE WITH STUCK OUT TONGUE > WINKING FACE WITH STUCK-OUT TONGUE
= e-329

1F60A FACE WITH STUCK OUT TONGUE > FACE WITH STUCK-OUT TONGUE
= e-32A

1F60B FACE SAVORING DELICIOUS FOOD > FACE SAVOURING DELICIOUS FOOD
= e-32B

1F62E CAT FACE WITH HEART SHAPED EYES > CAT FACE WITH HEART-SHAPED EYES
= e-33E

1F631 CAT FACE WITH TIGHTLY CLOSED LIPS > CAT FACE WITH TIGHTLY-CLOSED LIPS
= e-34F

1F63A PERSON RAISING BOTH HANDS IN CHEERS > PERSON RAISING BOTH HANDS IN CELEBRATION
= e-358

1F636 SEE NO EVIL MONKEY > SEE-NO-EVIL MONKEY
= e-354

1F637 SPEAK NO EVIL MONKEY > SPEAK-NO-EVIL MONKEY
= e-355

1F638 HEAR NO EVIL MONKEY > HEAR-NO-EVIL MONKEY
= e-356

Propose acceptance

T14. Page 78, Row 1F6: Emoticons.

Ireland requests one character addition and four annotations:

2639 WHITE FROWNING FACE

* used for the South House in Mahjong (**new annotation**)

263A WHITE SMILING FACE

= have a nice day!

* used for the East House in Mahjong (**new annotation**)

1F606 EXPRESSIONLESS FACE

* used for the North House in Mahjong (**new annotation**)

1F629 FACE WITHOUT MOUTH

* used for the West House in Mahjong (**new annotation**)

x 2687 white circle with two dots

The last one, 1F629, is the new character. Here is an example of the four characters in use in Mahjong annotation, from Amy Lo, *The Book of Mahjong: An Illustrated Guide* (Boston, Rutland, Tokyo: Tuttle, 2001):

(see document SC2 N4087 for picture)

Propose acceptance in principle

From the Irish ballot chart content, it seems that the expression 'House in Mahjong' common to all four requested annotations should be replaced with 'Wind in some Mahjong annotation'.

E8. Page 78, Row 1F6: Emoticons.

Ireland requests a number of glyph changes:

1F605 EXASPERATED FACE

1F611 HAPPY FACE WITH OPEN MOUTH AND COLD SWEAT

1F620 SLEEPY FACE

1F622 FACE WITH COLD SWEAT

1F623 DISAPPOINTED BUT RELIEVED FACE

Propose acceptance

Unlike previous comments of the same type (glyph change), these locations are unchanged as result of other comments.

E9. Page 78, Row 1F6: Emoticons.

Ireland requests that the following characters be rearranged in the code chart.

1F637 HEAR-NO-EVIL MONKEY (moved up from 1F638)

1F638 SPEAK-NO-EVIL MONKEY (moved down from 1F637)

Propose acceptance in principle

This is not an editorial change. Indeed, other similar requests from Ireland were qualified as technical. This rearrangement makes sense but has not been acted on yet.

T15. Page 81, Row 1F68: Transport and Map Symbols.

Ireland requests a number of name changes.

1F687 SUBWAY > UNDERGROUND TRAIN

= subway, metro

= e-7E0

1F68C BUS-1 > BUS

1F68D BUS-2 > ONCOMING BUS

= e-7E6

1F693 POLICE CAR-1 > POLICE CAR

= e-7F4

1F694 POLICE CAR-2 > ONCOMING POLICE CAR

1F695 TAXI-1 > TAXI

= e-7EF

1F696 TAXI-2 > ONCOMING TAXI

1F697 AUTOMOBILE-1 > AUTOMOBILE

= e-7E4

1F698 AUTOMOBILE-2 > ONCOMING AUTOMOBILE

Propose partial acceptance

The change for 1F687 from SUBWAY to UNDERGROUND TRAIN is controversial. Subway network are not necessarily underground, in fact most have large section above ground. Other changes look fine. Note that although the change from 1F69A TRUCK > DELIVERY TRUCK is not mentioned here, the ballot chart has the new name. The name change for 1F69A is also requested by the USA in comment T3.a.

T16. Page 81, Row 1F68: Transport and Map Symbols.

Ireland requests a character addition.

1F6C5 BATHTUB

Propose acceptance

T17. Page 81, Row 1F68: Transport and Map Symbols.

Ireland requests that the following characters be re-arranged in the code chart.

1F6BD TOILET (moved up from 1F6BF)
1F6BE WATER CLOSET (moved up from 1F6C0)
1F6BF SHOWER (moved down from 1F6BE)
1F6C0 BATH (moved down from 1F6BD)
1F6C1 BATHTUB (moved up from 1F6C5)
1F6C2 PASSPORT CONTROL (moved down from 1F6C1)
1F6C3 CUSTOMS (moved down from 1F6C2)
1F6C4 BAGGAGE CLAIM (moved down from 1F6C3)
1F6C5 LEFT LUGGAGE (moved down from 1F6C4)

Propose acceptance

This rearrangement makes sense but has not been acted on yet.

E10. Page 81, Row 1F68: Transport and Map Symbols.

(title changed by editor)

Ireland requests two glyph changes:

1F68F (1F68F) BUS STOP
1F6C0 (1F6BD) BATH

Propose acceptance

Though it is not clear whether the change of the sign content on top the pole of the bus stop, being so tiny, is necessary. The code positions corresponding to values before applying the moves suggested by T17 are shown in parenthesis

T18. Page 83, Row 1F70: Alchemical Symbols.

Ireland requests that the following character names be used:

1F708 ALCHEMICAL SYMBOL FOR AQUA-VITAE > ALCHEMICAL SYMBOL FOR AQUA VITAE
1F709 ALCHEMICAL SYMBOL FOR AQUA-VITAE-2 > ALCHEMICAL SYMBOL FOR AQUA VITAE-2
1F70D ALCHEMICAL SYMBOL FOR SULFUR > ALCHEMICAL SYMBOL FOR SULPHUR
1F70E ALCHEMICAL SYMBOL FOR PHILOSOPHERS SULFUR > ALCHEMICAL SYMBOL FOR PHILOSOPHERS SULPHUR
1F70F ALCHEMICAL SYMBOL FOR BLACK SULFUR > ALCHEMICAL SYMBOL FOR BLACK SULPHUR
1F715 ALCHEMICAL SYMBOL FOR NITER > ALCHEMICAL SYMBOL FOR NITRE
1F76C ALCHEMICAL SYMBOL FOR BATH OF VAPORS > ALCHEMICAL SYMBOL FOR BATH OF VAPOURS

Propose acceptance

See also comment T2 from UK supporting same changes for 1F70D-1F70F, 1F715, and 1F76C.

Japan, Negative

Japan votes against ISO/IEC 10646:2003 PDAM 8 (SC2N4078) with comments below. Japan will change its vote if the three comments JP.T1, JP.T2, and JP.T3 are addressed appropriately.

JP.T1 (technical), JH reference:

Change the source reference of JH as described in IRG N1573 as follows:

JH Hanyo-Denshi Program (汎用電子情報交換環境整備プログラム)

Note that the parenthesized Japanese text is a part of the source description.

Propose acceptance

JP.T2 (technical): U+2B779 removal

Remove the character JH-IB0680 (u+2b779 in CJK D), according to the conclusion of IRG #32 (IRG N1587).

Propose acceptance

Because this is the only reference for that character, U+2B779 will be removed from amendment 8 and the following characters moved up by one position. The character is still present in the chart provided with this disposition.

JP.T3 (technical): U+2B7EB incorrect

The character JH-444550 (u+2b7eb in CJK D) on the code chart is wrong.

Note that JNB re-verified its font submission and confirmed that the font contains a correct shape for this particular character. It should be a code chart production mistake.

Accepted

This is the result of a mapping error. The editor wants to remind the submitters to provide their fonts with actual code positions used for the amendment. Otherwise, he has to use mapping tables or redo the internal font mapping table. Neither solution is optimal and is prone to error as attested here.

JP.E4 (editorial): Bopomofo

Shapes of three Bopomofo extended characters addition (u+031b8, u+031b9 and u+031ba) look strange; they are based on different design rules from existing Bopomofo characters. JNB requests submitter to re-confirm the design.

Propose acceptance in principle

Agree that the design is not optimal. The editor will work with the submitter to get better aligned characters.

JP.G5 (general): Emoji

Japan has several concerns on the character additions based on the so-called *emoji* proposal. Japan national body feels that we WG 2 need more study on the set before inclusion in the amendment.

Major issues and assortment of comments follow:

Noted

Because this is only the PDAM ballot, there is still time to fix concerns. However, the various opinions have been converging through several ad hoc meetings.

a) We need discussion on inclusion in the standard of the mapping information between UCS and the existing proprietary code sets used in the Japanese mobile phone operators. Some characters, e.g., EMOJI COMPATIBILITY SYMBOL-XX characters (U+1F560 to U+1F564) may be useless unless such mapping information is provided because their character names do not fully convey their connotational meaning. Some other characters, e.g., HEART-X (U+1F498 to U+1F49B), have same shape with different grey shading levels, and it is impractical to expect two or more independently developed mappings between the UCS and the same proprietary code set (with several colorful heart symbols) match because it is unclear which shading level corresponds to, say, pink.

Noted

The concerns expressed here are covered through dispositions of comments made by other NBs:

- Mapping information will be added to the amendment as a result of disposition of comment E1 from Germany and comment T3.e from USA.
- Characters with various grey shading have now names including colors and a standardized hatching as a result of disposition of comment T1 from Germany and of comments T5, E3, T7, E5, T10, and E7 from Ireland.

See details below

b) Japan national body received complaints on the representative glyphs for the *emoji* characters in the draft amendment. Some simply say that some graphics are inappropriate. Some say the shape on the draft amendment do not match with the (unspecified in the standard) original *emoji* characters. Some say 'never invent novel symbols; just use existing ones.'

Propose acceptance in principle

Note that, because the Emoji have multiple sources corresponding to the various telecommunication vendors, they don't have a unique formal representative glyph. Many other NBs have proposed further refinements to names and glyphs which appear to converge. More specific concerns/issues from the Japanese NB would be appreciated.

c) The original *emoji* proposal aimed at providing complete emoji repertory. The set in the draft amendment, however, doesn't cover all emoji characters in use in Japan. As a result, we can't guarantee so-called round trip integrity between any of the existing mobile phone operator's code set and UCS. It is questionable that adding such incomplete set is valuable.

Propose acceptance in principle

Various comments have been made to cover that issue. Comment T2 from Ireland requests one additional character (called DOUBLE CURLY LOOP). The comments T3.d and T3.e from USA also cover the same need. If all requests are accepted in principle, with the help of the source/mapping table also requested, it will be possible to verify that the set is as complete as desired by all parties.

d) For Pictorial Characters associated with Japanese folklore, the character name with "JAPANESE" should be attached to convey proper context of character. Otherwise, the users of UCS can totally misunderstand what they mean based on their English character names. Specifically,

1F478 OGRE → JAPANESE OGRE

1F479 GOBLIN → JAPANESE GOBLIN

Propose acceptance

This has been proposed for other characters, such as 1F38E GIRLS DOLL FESTIVAL → JAPANESE DOLLS (comment T5 from Ireland). Alternatively, an annotation could be added.

e) Some character names and the shape look inconsistent. 1F35C "STEAMING BOWL" has a note that says "ramen noodles, rice donburi", but its shape clearly denotes the noodles, but rice, so the note of "rice donburi" looks strange. 1F4E7 "PACKAGE" should be named "GIFT PACKAGE" to describe its glyph more specifically with some notes that tells how this character differs from 1F381 "WRAPPED PRESENT". U+1F4D5 VERTICAL CLOSED BOOK and U+1F4D6 OPEN BOOK seem paired characters, but their names are asymmetric on the word VERTICAL. U+1F362 SEAFOOD CASSEROLE is after the Japanese dish *oden*, but it is impossible to associate *oden* from the name seafood casserole. Also the graphic for SEAFOOD CASSEROLE doesn't show any seafood. (The shapes look an egg, konnyaku, and a cut piece of daikon (aka Chinese raddish). They are popular in *oden*, but none of them are seafood.) U+1F4A0 DIAMOND SHAPE WITH A DOT INSIDE is after the DoCoMo's character of the name *kawaii*, but it is not easy to think it is *kawaii*.

Propose acceptance in principle

This could be disposed as follows:

1F35C STEAMING BOWL: remove 'rice donburi' annotation

1F4E7 PACKAGE: add cross reference to 1F381 WRAPPED PRESENT (Irish comment E2 and T9), changing the name to GIFT PACKAGE would make the characters too close in purpose.

1F4D5 VERTICAL CLOSED BOOK → CLOSED BOOK (Irish comment T7)

1F362 SEAFOOD CASSEROLE → ODEN (Irish comment T5)

1F4A0 DIAMOND SHAPE WITH A DOT INSIDE: add 'kawaii' in annotation (maybe also cute?)

g) Characters in each group of 1F498 to 1F49B (HEART-1 to HEART-4), 1F34E to 1F34F (APPLE-1 and APPLE-2), 1F4D7 to 1F4D9 (BOOK-1 to -3), etc. seem to have the same shape and only differ in shading. An explicit reason why and how they are encoded as separate characters should be provided as a note. (Usually, such differences should be handled by other means, e.g., style or formatting attributes)

Propose acceptance in principle

Characters with various grey shading have now names including colors and a standardized hatching as a result of disposition of comment T1 from Germany and of comments T5, E3, T7, E5, T10, and E7 from Ireland. The note is provided as a block header (see comment E3 from Ireland).

United Kingdom: Positive with comments

Technical comments:

T.1. Clause 34 Row 1F0: Miscellaneous Pictographic Symbols

1F4B4 BANKNOTE WITH YEN SIGN
1F4B5 BANKNOTE WITH DOLLAR SIGN
1F4B6 BANKNOTE WITH EURO SIGN
1F4B7 <reserved>

BANKNOTE WITH POUND SIGN originally proposed for inclusion at 1F4B7 in N3607 should be added to complete the set of major world currencies represented by these characters. Note that pound sterling is the third-largest reserve currency after the US dollar and the euro, and the fourth-most-traded currency in the foreign exchange market after the US dollar, the euro and the Japanese yen.

Propose acceptance

Also requested by comment T8 from Ireland.

T.2. Clause 34 Row 1F7: Alchemical Symbols

1F70D ALCHEMICAL SYMBOL FOR SULFUR
1F70E ALCHEMICAL SYMBOL FOR PHILOSOPHERS SULFUR
1F70F ALCHEMICAL SYMBOL FOR BLACK SULFUR
1F715 ALCHEMICAL SYMBOL FOR NITER
1F76C ALCHEMICAL SYMBOL FOR BATH OF VAPORS

As the proposed repertoire of alchemical symbols is largely based on the usage of Newton and other 17th century authors, it is inappropriate to use modern American spellings for the names of the above characters. WG2 N3584 Figs. 1 and 2 show that the original 17th century documents that the proposal is based on use the spelling "sulphur". Therefore we suggest changing the names of these characters to use customary British English spellings.

Proposed new names:

1F70D ALCHEMICAL SYMBOL FOR SULPHUR
1F70E ALCHEMICAL SYMBOL FOR PHILOSOPHERS SULPHUR
1F70F ALCHEMICAL SYMBOL FOR BLACK SULPHUR
1F715 ALCHEMICAL SYMBOL FOR NITRE
1F76C ALCHEMICAL SYMBOL FOR BATH OF VAPOURS

Propose acceptance

Also requested by comment T18 from Ireland.

T.3. Clause 34 Row 1F7: Alchemical Symbols

1F722 SUBLIMATE OF COPPER

Change the name of 1F722 to be consistent with all other characters in this block.

Proposed new name:

ALCHEMICAL SYMBOL FOR SUBLIMATE OF COPPER

Propose acceptance

USA: Negative

The U.S. National Body is voting No with comments on the following SC2 ballot: SC2 N4078: Information technology - Universal Multiple - Octet Coded Character Set (UCS) - AMENDMENT 8: Additional symbols, Bamum supplement, CJK Unified Ideographs Extension D, and other characters. If comments T.3.d, T.3.e., and T5 are accommodated, the U.S. will change its vote to Yes..

Technical comments:

T.1. Malayalam

During the review of the ballot, the U.S. determined that one more character was required for Malayalam. As a result, the U.S. requests the following character be added to this amendment:

U+0D4E MALAYALAM LETTER DOT REPH. The glyph, rationale, and properties are provided in N3676 (L2/09-245).

Propose acceptance

T.2. Miscellaneous Symbols

While reviewing the 2600 block, which includes a new zodiacal symbol, OPHIUCHUS, U.S. noted an additional character was missing. As a result, the U.S. requests the addition of one character, U+26E2 ASTRONOMICAL SYMBOL FOR URANUS, with glyph and background as given in N3672 (L2/09-300).

Propose acceptance

See also comment T1 from Ireland.

T.3. Miscellaneous Pictographic Symbols

The U.S. requests a series of changes to characters in Miscellaneous Pictographic Symbols.

a. Change the following three character names:

Change U+1F4AA FLEXED BICEP to: FLEXED BICEPS

(Rationale: biceps is the Oxford English Dictionary form for the singular)

Change U+1F69A TRUCK to: DELIVERY TRUCK

(Rationale: the name change serves to differentiate it from U+26DF BLACK TRUCK)

Change U+1F3A5 MOVIES to: MOVIE CAMERA

(Rationale: the character represents a camera, not a projector; “movie camera” is unambiguous)

Propose acceptance

See also Irish comment T7 (1F4AA), disposition of comment T15 (1F69A), and comment T5 (1F3A5).

b. Change the annotation for U+1F3A5 MOVIE CAMERA (with the new name, as above) from "film, movie projector" to "film, movies" (Rationale: this better reflects its use in the Japanese sources)

Propose acceptance

See also Irish comment T5.

c. Make three glyph changes:

U+1F526 BOOKMARK

(Rationale: make the glyph appear more like a bookmark, and not a luggage tag or a sales tag)

U+1F3A5 MOVIE CAMERA

(Rationale: see above)

U+1F420 CAMEL

(Rationale: the representative symbol should be a 2-hump camel which is reflected in the Japanese sources)

Propose acceptance in principle

See also Irish comment E7 (1F526), E3 (1F3A5), and disposition of comment T7 and E5 (1F420). See also disposition of comment T10 from Germany concerning the ‘Camel’ symbols.

d. Add the following eleven characters to this amendment as listed below:

1F565 EMOJI COMPATIBILITY SYMBOL-6

* represents KDDI Emoji #703

* represents Softbank Emoji #430

= e-4ED

1F566 EMOJI COMPATIBILITY SYMBOL-7

* represents KDDI Emoji #700

* represents Softbank Emoji #425

= e-4E8

1F567 EMOJI COMPATIBILITY SYMBOL-8

* represents KDDI Emoji #366

* represents Softbank Emoji #428

= e-4EB

1F568 EMOJI COMPATIBILITY SYMBOL-9

* represents KDDI Emoji #499

* represents Softbank Emoji #424

= e-4E7

1F569 EMOJI COMPATIBILITY SYMBOL-10

* represents KDDI Emoji #702

* represents Softbank Emoji #427

= e-4EA

1F56A EMOJI COMPATIBILITY SYMBOL-11

* represents KDDI Emoji #701

* represents Softbank Emoji #426

= e-4E9

1F56B EMOJI COMPATIBILITY SYMBOL-12

* represents KDDI Emoji #237

* represents Softbank Emoji #422

= e-4E5

1F56C EMOJI COMPATIBILITY SYMBOL-13

* represents KDDI Emoji #704

* represents Softbank Emoji #431

= e-4EE

1F56D EMOJI COMPATIBILITY SYMBOL-14

* represents KDDI Emoji #367

* represents Softbank Emoji #429

= e-4EC

1F56E EMOJI COMPATIBILITY SYMBOL-15

* represents KDDI Emoji #90

* represents Softbank Emoji #423

= e-4E6

1F56F EMOJI COMPATIBILITY SYMBOL-16

* represents docomo Emoji #122

= e-82B

The glyphs for the above eleven characters should be dashed boxes with text on two lines, "EC" on the top and the numbers ranging from 6..16 on the bottom, similar to U+FFFC and U+1680.

WG2 discussion

*The 10 first characters are related to the comment T23 from Germany. This should be disposed by considering either this request, or document WG2 N3680. In all cases, the mapping information should not be provided by annotation of the form: * represents Softbank/docomo/KDDI Emoji #xxx, but instead by a linked reference file as requested in comment T3.e.*

The eleventh character 1F56F EMOJI COMPATIBILITY SYMBOL-16 is also proposed in Irish comment E7 as 27BF DOUBLE CURLY LOOP which seems a better solution. See also disposition of comment JP.G5c) from Japan.

e. The U.S. requests the inclusion of the emoji source data as documented in L2/09-078=N3585, as a linked data file named EmojiSources.txt, and addition of an appropriate clause in the standard that refers to the data file.

Propose acceptance

See also disposition of comment JP.G5a) from Japan.

T.4. Latin Extended D

The U.S. requests eight phonetic subscripts located at the codepoint locations U+A7F2–U+A7F9 in the Latin Extended D block be moved to the Superscripts and Subscripts block, where they will be included with other subscripts, and hence be more discoverable.

The characters are (with newly proposed codepoints):

2095 LATIN SUBSCRIPT SMALL LETTER H

2096 LATIN SUBSCRIPT SMALL LETTER K

2097 LATIN SUBSCRIPT SMALL LETTER L

2098 LATIN SUBSCRIPT SMALL LETTER M

2099 LATIN SUBSCRIPT SMALL LETTER N

209A LATIN SUBSCRIPT SMALL LETTER P

209B LATIN SUBSCRIPT SMALL LETTER S

209C LATIN SUBSCRIPT SMALL LETTER T

Propose acceptance

T.5. Latin Extended D

The U.S. requests the removal of U+A78F LATIN LETTER MIDDLE DOT as we feel this character is unnecessary. Justification for this request is contained in N3678 (L2/09-278).

WG2 discussion

See also opposite view exposed in comment T3 from Ireland.

T.6. Source Data for Ideographs

The U.S. strongly recommends that documentation of the source references for Ext. D be provided. In order for Extension D to be included as part of an international standard, we feel that it is necessary to provide clear and complete source information in the form of a short summary of how to interpret the source data supplied in the Extension D document itself. This information is critical to properly interpret the characters in the Extension. For example, this summary could state that U-source data refer to the character's index within UTR #45, with a URI indicating where UTR #45 can be found.

WG2 discussion

The editor is unsure of what is requested. The summary suggested for the U-source is part of the standard since Amendment 5 (introduction of CJK Extension C). The only thing that could be added is an URI for UTR #45. The other new sources for CJK Extension D use a referencing format similar to previous sources mentioned by the standards. More guidance is requested for action.

Appendix – Preliminary draft charts

The following pages show preliminary charts as amended by the draft disposition of comments. Only pages that have changed or discussed through the disposition are shown. For example, the Bamum Supplement received no comments and is not shown in these pages.

Only characters names, glyphs changes that were proposed to be accepted are shown along with other pdam8 content in the same block. Please follow the draft disposition for the details. As a matter of principle, large move requests were not included to facilitate comparison with the pdam8 original charts.

The charts are only a help to make easier to follow the disposition. They do not preclude any further changes resulting of the disposition of comments made during the WG2 meeting in Tokyo.

They may include additions (for example Latin extended D block) which were not yet discussed by WG2 experts.
