Hungary (MSZT)	<i>Comment</i>	2012-10-02 14:06:39

By now interested parties have not been able to reach a consensus on negotiating the Proposed Draft Amendment (PDAM) 2.2 - ISO/IEC 10646:2012/Amd.2.2:2012 in competent Hungarian national standardization technical committee. Among the interested parties are two substantially different position on the draft. One of them supports "Yes", and the other one supports "No". The intention of the Hungarian National Body (Hungarian Standards Institution - MSZT) does not prevent a standardisation of the Universal Coded Character Set, so the possible official vote of Hungarian National Body can only be **Abstention** . Any document that contains a different opinion on the ISO/IEC 10646:2012/Amd.2.2:2012 does not represent the official Hungarian national position.
