Re: Registration Authority for ISO/IEC 15897

DKUUG hereby testifies that it is willing to serve as Registration Authority for ISO/IEC 15897 "Procedures for European registration of cultural elements".

DKUUG already serves as Registration Authority for CEN ENV 12005, which is the standard that was fast-tracked as ISO/IEC 15897.

DKUUG was founded in 1983. It is an association for users of Open Systems. Its current net value is circa 20 million DKK.

The register will be available free of charge via electronic networking like the Internet. It will also be possible for a charge of copying cost and a handling fee to obtain information from the registry on paper or possibly other media.

On behalf of DKUUG,

Bo Folkmann
 director
