--

ISO/IEC JTC1/SC2/WG2 N 1878
Date: 1998-9-23

Title:	Report of the meetings of the ad-hoc group on Mongolian; London; 21/22 September, 1998
Source:	Ad-hoc group on Mongolian (Mongolia, China, UNU/IIST, Unicode Consortium)
Action:	
Distribution:	ISO/IEC JTC 1 /SC 2 /WG 2 members

The ad-hoc group on Mongolian met several times for discussions in order to resolve the outstanding issues relating to the encoding of the Mongolian script (documents N1808, N1833, N1865, XXXX).

Agreement has been reached on all outstanding issues as follows:

- 1) The Mongolian Space is retained but moved to the general punctuation block and renamed "Narrow No Break Space"
- 2) The Mongolian Combination Symbols are moved to the general punctuation block and renamed "Question Exclamation Mark" and "Exclamation Question Mark"
- 3) The positional format control characters are removed. Positional forms are to be distinguished using the existing zero-width joiner and non-joiner.
- 4) The three free variant selectors are retained.
- 5) The Mongolian vowel separator is retained. The functionality which was duplicated by this symbol is removed by removing the separated form of the letter "a" and converting the separated form of the letter "e" to a connected form (removing the leading small space, present but not visible in the reference table in document N1711). In both cases, the affected variant is the last listed.
- 6) The Todo soft hyphen is retained.

Space vacated in the original tables in N1711 as a result of moving and

removing characters is filled: the remaining punctuation characters in the first column are all moved up to fill vacated spaces column, and the Mongolian Vowel Separator is moved to the first of the resulting empty spaces at the bottom of this column. The positions of characters from column 3 onwards remains unchanged.

A draft of the proposed text for a PDAM based on the above is given below. Unknown numbers (for position, etc.) remain to be allocated officially and are marked XXX in this draft.

Information technology-Universal Multiple -- Octet Coded Character Set (UCS) --

Part 1:

Architecture and Basic Multilingual Plane AMENDMENT 29: Mongolian

Page 11, Clause 19

In the list of Block names, after the entry XXXXX insert new entry as follows:

Mongolian ^{1800 18AF}~~XXXX~~ - ~~XXXX~~

Page 15, Clause 25, Figure 4

In Figure 4 (see Amendment 5), in the cross-hatched area for rows XX to XX, insert a single row XX containing the word:

Mongolian

centred on a white background.

Page XX, Table 35 -- Row 20:

Insert the following graphic symbols at the indicated positions in the table, replacing existing entries which are indicated by a hatched fill.

202F	
2048	
2049	

Page XX, Table 35 -- Row 20:

Insert the following character name entries at the indicated positions in the table, replacing the existing entries which read "(This position shall not be used)".

hex	Name
2F	NARROW NO BREAK SPACE
48	QUESTION EXCLAMATION MARK
49	EXCLAMATION QUESTION MARK

After page XXX

Add the following new tables titled:

Table 242 -- Row XX: MONGOLIAN

Table 243 -- Row XX: MONGOLIAN
