Dear Sir or Madam,

ISO/IEC 10646-1:1993/FDAmendment 18

We have pleasure in attaching as an annex the table of replies indicating the result of voting on the above. This table of replies is also distributed to the P-members of JTC 1.

As this text has received the required level of approval, as defined in the Procedures to the work of JTC 1, ITTF will now proceed with publication.

Any comments included with this table of replies are appended for information only, in accordance with the Procedures to the work of JTC 1. Errors introduced in the course of preparation of the FDIS that affect the validity of the text will be corrected by ITTF prior to publication. All other comments should be retained by the committee secretariat, and should be taken into account at the time of a future revision or amendment.

Yours faithfully,

Keith Brannon

technical reasons for disapproval of
ISO/IEC 10646-1/FDAM 18

Taking into consideration the fact that SARM have not participated in the
development of the ISO/IEC 10646/6-1: 1939 concerning symbols of the
Armenian language we are obliged to state the mentioned standard contradicts
Armenian National standards AST 34.001-97 Information Technologies,
Character Sets and Information Encoding. Character Sets and AST 34.002-97
Information Technologies. Character Sets and Encoding. 8 Bit Coding.
Character Sets.

We have made a request to the ISO/IEC ITC1/SC2 secretariat to suspend
work concerning ISO 10646-1 with the obligation to submit corresponding
amendment to the standard 1.04.1999.
