Finnish NB contribution to JTC 1 on the Japanese NB concerns on SC 2 program of work.

Relative to the Japanese NB concerns reflected in JTC 1 N 5826, regarding the issue of NP versus subdivision, the Finnish NB endorses the recommendations from the SC 2 ad hoc group established at the SC 2 meeting no. 9 in Fukuoka. Furthermore, Finland endorses the recommendations in contribution JTC 1/SC 2 N 3341 (SC 2/WG 2 N 2049, Contribution on Initiating Formal Processing of Amendments to ISO/IEC 10646). We believe that proper application of the quality control measures outlined in this document works to prevent any further raising of concerns of this kind in the future.
