

ISO/IEC JTC/1 SC/2 WG/2
Universal Multiple-Octet Coded Character Set (UCS)
Secretariat: ANSI

Title:	Row 0E LAO (collection 26)
Doc. Type:	Expert contribution
Source:	Takayuki K. Sato CICC-Japan (secretariat for MLIT project)
Project:	02.18
Status:	For information
Date:	2000-01-06
Distribution:	SC 2/WG2
Reference:	ISO/IEC 10646-1:1993
Medium:	

BACK GROUND:

In the Fukuoka WG2 meeting, a possibility of up date requirement on ISO/IEC 10646-1 row 0E LAO was indicated by the guest group (Asian countries). This is an up-dated status.

INFORMATION:

Mr. Phonpast PHISSAMAY (Science Technology and Environment Organization, Prime Minister's of office of Lao, Lao expert for the MLIT project) expressed the review result of the collection by Lao experts at #4-MLIT held in Yangon, Myanmar as follow:

1. LAO reviewed the set of characters of the collection 26 (LAO) and concluded that the collection is acceptable by Lao as a basic Lao character set for today's usage.
2. May be, some extension of it would be needed for much advanced application in future.
3. The extension request will be submitted in future when it is available after consensus obtained among authorities and experts in Lao.
4. Thus, nothing to do is needed for the WG2 until the new requirement come from Lao.
