Systematic review of International Standards

Dear Sir or Madam,

In accordance with clause 14.3 of the Procedures for the Technical Work of ISO/IEC JTC 1 on Information Technology 1998, International Standards coming up to five years of age since publication have to be reviewed by the committee responsible for their preparation. This review aims at deciding whether these International Standards should be confirmed, revised or withdrawn. The decision regarding confirmation, revision or withdrawal will be based on the degree to which the International Standards have been implemented at the national level and applied in practice.

As decided by the ISO Technical Management Board, the full administrative management of the systematic review has been assigned to the committee secretariats. Therefore, the duly completed voting forms, accompanied by any additional information or proposals you may wish to make, are to be returned to *the JTC 1 Secretariat (and not to the ITTF Secretariat)* **15 July 2002**. We would also draw your attention to the recommendations from the responsible JTC 1/SCs on these standards.

This circular letter, the voting form and the JTC 1/SC recommendations together with a complete list of International Standards due for review this coming year are available electronically from the following Web site:

<http://www.iso.ch/ittf/jtc1review>

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Keith Brannon', is written over a horizontal line.
