1. Recently, KOREA POST, Ministry of Information and Communications of KOREA, announced Postal Code Mark, which is a Korean syllable "우" enclosed within a circle.

- The exact shape of the mark can be found at the following address:

http://www.koreapost.go.kr/htm/post/internal/knumber/knumber_02.jsp#03

- The syllable "우" is the first syllable of "우편 번호", Postal Code Mark.

2. Korea JTC1/SC2 decided to add the mark to Korea Standard KS X 1001:2002.

- The position of the mark is row 2, column 72.

- Its code position of the mark is A2E8 in EUC-KR.

3. We plan to suggest to add to UCS this Postal Code Mark after the revised KS X 1001:2002 has been published.
