In some recent work that was done in IBM Toronto Laboratories, while reconciling the number of code positions published in Unicode V4.0 with the number of code positions in collection 340, we stumbled upon four missing cell entries in section A.5.1 – Plane 00. (Reference: ISO/IEC JTC1/SC2 - 02n3699c-10646-2003-FinalText - file: ISO-2003-charts-A000-FFFD-Yi-Specials.pdf). We are proposing that the corrections marked below be incorporated into the next amendment of 10646. The relevant code charts are attached for information.
