This is the first call for the Editing Group on 14651 (OWG-SORT) meeting 1 in Xiamen, Fujian Province, China. The meeting host is ECMA and ETSI. For the logistics info please refer to document SC2 N 3785, as this meeting is collocated with SC2/WG2.

The Editing Group on 14651 (OWG-SORT) will be meeting at a convenient timeframe to be established during the four days staring on Sept. 12 2005, to make sure that no inconvenient occurs for experts that need to attend SC2/WG2 at crucial discussion times.

The objective of this meeting is to examine the results of the FDAM 2 ballot, establish the Disposition of Comments on concurrent PDAM 3 ballot on ISO/IEC 14651, and hopefully instruct the editor to issue FPDAM 3 ballot in a timely fashion, pending the results of the previous ballots.
