Dear Dr Anderson,

Dear Deborah,

I would like to voice my support for the recently published document "Proposal to add medievalist characters to the UCS", edited by Michael Everson.

As a specialist in Medieval Portuguese Linguistics and Philology I can attest that many the characters proposed in that document are important for my own work (which includes the preparation of *bona fide* editions of primary sources for linguistic and graphemic analysis) and for the work of my colleagues in medieval studies in the Iberian Peninsula.

I hope that the UTC will approve the contents of the proposal for encoding in the Unicode Standard.

Please forward this letter to the UTC.

Thank you.

Sincerely,

António Henrique de Albuquerque Emiliano, Ph. D.
Tenured Asst Professor w/ Habilitation
