Title: Addition of seven CJK Unified Ideographs  
From: Ken Lunde and Eric Muller, Adobe Systems Inc  
Date: February 8, 2007

The seven CJK ideographs proposed here are present in the K-JIS and Sha-ken character collections. The K-JIS collection is developed by 共同通信社 and 配信新聞社 for writing newspaper articles in Japan. The Sha-ken collection is part of a proprietary typesetting system widely used in Japan. These characters are also present in the Adobe-Japan1 collection, which is the basis for many desktop fonts, and at the time of this proposal are the only characters of that collection not present in Unicode / ISO/IEC 10646.

</table>

We propose to encode those seven characters in the CJK Unified Ideographs block, at positions U+9FBC through U+9FC2.

At its last meeting, the IRG did not object to the fast-tracking of those characters, nor to their inclusion in Amendment 4. However, the IRG asked that those seven characters not be interleaved in Extension C, hence the proposed code points.
A. Administrative

1. Title: Addition of seven CJK Unified Ideographs

2. Requester's name: Adobe Systems

3. Requester type (Member body/Liaison/Individual contribution): Individual contribution

4. Submission date: February 8, 2007

5. Requester's reference (if applicable):

6. Choose one of the following:
   - This is a complete proposal: Yes
   - More information will be provided later:

B. Technical – General

1. Choose one of the following:
   - a. This proposal is for a new script (set of characters): No
   - Proposed name of script:
   - b. The proposal is for addition of character(s) to an existing block: Yes
   - Name of the existing block: CJK Unified Ideographs Extension A
   - Number of characters in proposal: 7

2. Proposed category (select one from below - see section 2.2 of P&P document):
   - A-Contemporary
   - B.1-Specialized (small collection)
   - B.2-Specialized (large collection)
   - C-Major extinct
   - D-Attested extinct
   - E-Minor extinct
   - F-Archaic Hieroglyphic or Ideographic
   - G-Obscure or questionable usage symbols

3. Proposed Level of Implementation (1, 2 or 3) (see Annex K in P&P document):
   - 1
   - Is a rationale provided for the choice? No

4. Is a repertoire including character names provided? Yes
   - a. If YES, are the names in accordance with the “character naming guidelines” in Annex L of P&P document? Yes
   - b. Are the character shapes attached in a legible form suitable for review? Yes

5. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for publishing the standard?
   - TrueType, Adobe Systems
   - If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools used:

6. References:
   - a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided? Yes
   - b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached? No

7. Special encoding issues:
   - Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)? No

8. Additional Information:

   Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at http://www.unicode.org and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

---

### C. Technical - Justification

1. Has this proposal for addition of character(s) been submitted before?  
   - If YES explain  
   - No

2. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?  
   - If YES, with whom?  
   - No

3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?  
   - Reference:

4. The context of use for the proposed characters (type of use; common or rare)  
   - Reference:

5. Are the proposed characters in current use by the user community?  
   - If YES, where?  
   - Reference: K-JIS and Sha-ken

6. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP?  
   - If YES, is a rationale provided?  
   - No

7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?  

8. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?  
   - If YES, is a rationale for its inclusion provided?  
   - No

9. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?  
   - If YES, is a rationale for its inclusion provided?  
   - No

10. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character?  
    - If YES, is a rationale for its inclusion provided?  
    - No

11. Does the proposal include use of combining characters and/or use of composite sequences?  
    - If YES, is a rationale for such use provided?  
    - No

12. Does the proposal contain characters with any special properties such as control function or similar semantics?  
    - If YES, describe in detail (include attachment if necessary)  
    - No

13. Does the proposal contain any Ideographic compatibility character(s)?  
    - If YES, is the equivalent corresponding unified ideographic character(s) identified?  
    - No
