RE: N3237: Proposal to encode Egyptian Hieroglyphs in the SMP of the UCS by Michael Everson and Bob Richmond

Dear Mr. Ksar,

I am an Egyptian professor of Egyptology, Faculty of Archaeology and a philologist at the University of Cairo. I have reviewed the proposal N3237 on Egyptian hieroglyphs. I find the actual state of affairs based on the proposal to be quite satisfactory and very useful for scholars around the world. I look forward to seeing the Ptolemaic signs, which are more numerous, included in a future stage of work.

Sincerely,

Ola El Aguizy
