

L2/08-336

DOC TYPE: Working Group Document

TITLE: *Single-Column Tangut Code Chart* (using Column G font)

SOURCE: Richard Cook

STATUS: Expert contribution

ACTION: For UTC and WG2 consideration

DATE: 2008-09-03

In discussion at SC2/WG2 # 52 (2008-04-22) experts representing China and US National Bodies agreed on seven points outlined in the *China/US NB Consensus on N3297* (L2/08-187 == N3467), relating to glyph data and mappings provided in China's review of the Tangut encoding proposal, for subsequent Tangut code chart production. Current document submissions are as follows:

L2/08-336 *Single-Column Chart* (using *Column G* font)

L2/08-259 *Multi-Column Chart* (5 columns, with new *Column G*)

The new charts incorporate China's latest contributions, adding an entirely new *Column G* to the previous four-column version of the *Multi-Column Chart* (L2/07-144r == N3297A). This new column makes use of glyph data and mappings provided by Drs. 孙伯君 Sūn Bójūn (中国科学院民族学与人类学研究所 Chinese Academy of Social Sciences, Minorities and Humanities Research Institute) and 景永时 Jǐng Yǒngshí (of 宁夏社会科学院 Níngxià Academy of Social Sciences), refined in months of work subsequent to WG2 #52 in Redmond.

China's significant contributions make possible the beautiful new glyphs in these charts, and strengthen our already high confidence in the proposed repertory and mappings. China's glyphs are by far the best available for code chart production, and should be used in production of all future code charts.

The new glyph and mapping data have also been incorporated into the project Tangut databases, and will be available via the online look-up tool. The updated *UniTangut.txt* mapping table (L2/07-291) and an update of *Proposed Draft Unicode Technical Report #43: A User's Guide to the UniTangut Database* (L2/07-290) will also be submitted for review. Consolidated Tangut project data is still available here:

<http://linguistics.berkeley.edu/~rscook/UTC/Tangut/>

Addressing concern raised in UK's recent review document (L2/08-337 == N3496): the use of “Tangut Variation Sequences” to address glyph-level lexical-source separation issues (evident in the *Multi-Column Chart*) was agreed to in principle in the drafting of the consensus document (L2/08-187 == WG2/N3467), though this was omitted from that document as being outside the scope of present work. A future proposal will seek clarification from UTC and WG2 regarding several issues related to standardization of “Tangut Variation Sequences”.
