This document presents a rationalization of the two blocks under ballot in FPDAM6 and PDAM7, I recommend that the two blocks be consolidated as shown here.

In the first of the three code charts both charts are shown consolidated, with the characters under ballot in FPDAM6 are coloured yellow for ease of identification.

In the second of the three charts, the characters on FPDAM6 are shown as recommended to be re-arranged.

In the third of the three charts, the characters on PDAM7 are shown as recommended to be re-arranged.
