

To,

Dr. Lisa Moore

The Chair

Unicode Technical Committee

Subject: GOI Feedback on the various Indic related document submitted to UTC:

1. Proposal to Encode the Sign ANJI for Bengali in ISO/IEC 10646” UTC document no. L2/11-359 and L2/12-121.

Experts have endorsed the encoding of Bengali sign ANJI. UTC may take further necessary action to encode the same.

2. Proposal to encode Devanagari Siddham

“Devanagari Siddham” proposed by Prof. Anshumaan Pandey was discussed and examined. Proposal to encode “Siddham” script has already been submitted to Unicode by Prof. Anshuman Pandey. Proposed “Devanagari Siddham”(L2/12-123R) is same as proposed in the L2/12-011R at code point 115C1. Also some experts opined that it is not in current use with Devanagari. However, further consultations are being done. Hence, GoI request to defer any decision with respect to L2/12-123R.

3. Request for editorial updates to various Indic scripts (L2/12-0106)

The proposal is being referred to experts/ state governments to give their views.

Thanking you.

(Swaran Lata)
