Introduction

This proposal requests addition of the following symbol:

BOWL OF HYGIEIA

with properties:

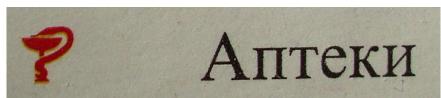

1F54F;BOWL OF HYGIEIA;So;0;ON;;;;;N;;;;;

Background

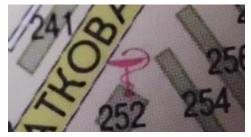

Bowl of Hygieia is a widely recognized symbol which is used to denote something related to pharmacy. Hygieia is ancient Greek goddess of health and daughter of Asclepius (Aesculapius), god of medicine. Asclepius has his own symbol, rod of Asclepius (U+2695 STAFF OF AESCULAPIUS), which is used to denote something related to medicine in general. The two symbols are closely related, both feature snakes. Staff of Asclepius is encoded in Unicode, bowl of Hygieia is not.
