

To: UTC
From: Deborah Anderson, SEI, UC Berkeley
Subject: Anatolian RA or RI
Date: 8 May 2013

0. Background

At the January 2013 UTC meeting, the following action item (134-A42) was assigned to myself and Michael Everson:

Examine the Anatolian Hieroglyphs sign list in [L2/12-213](#) for any other possible signs making use of the combining ra/ri.

The action item was created in the context of discussion about canonical decompositions for three Anatolian hieroglyphs, which were included in the Anatolian Hieroglyphs proposal (U+144F0 ANATOLIAN HIEROGLYPH A209A, U+145B9 ANATOLIAN HIEROGLYPH A389 and U+145F8 ANATOLIAN HIEROGLYPH A450a).

In the ballot comments on the CD, document WG2 N4398, Ireland proposed four additional decompositions, 144A0 ANATOLIAN HIEROGLYPH A134, 14546 ANATOLIAN HIEROGLYPH A290, 14562 ANATOLIAN HIEROGLYPH A315, and 145A4 ANATOLIAN HIEROGLYPH A371A.

1. Comments on this List

The list below includes characters showing *possible* signs which contain a stroke that could contain RA/RI. Note the long list of characters at that have no established value as yet, particularly at the end of the list.

The combining character RA/RI can be attached on the side, as in Figure 2 of the proposal:

RA/RI can become part of the body of the base character, as in the case of U + RA/RI

The mark can also be attached below, as in Figure 7 for tú + ra/ri:

This list has not been run by experts, but contains characters whose glyphs contained a small horizontal or vertical stroke, including strokes that appear as an integral part of the character. It also includes characters which have been identified as an object (such as an ax), just to provide a full list.

A few of the glyphs have a small vertical stroke that has been identified in the annotation as being the “MINUS” character.

The names list entry for 145AE MINUS is:

145AE 𐤀 ANATOLIAN HIEROGLYPH A381
= minus

“Minus” appears in the following annotations (and appear in section 2, below):

14444 ANATOLIAN HIEROGLYPH A062
= longus, manus+minus?

14517 ANATOLIAN HIEROGLYPH A245
= vacuus, aedificium+minus

1451A 𐤀 ANATOLIAN HIEROGLYPH A248
= delere, domus+minus

145AF 𐤀 ANATOLIAN HIEROGLYPH A381A
= mori, vir2.minus

The “MINUS” vertical bar tends to reinforce the case that a small vertical bar on a character could have a different interpretation from RA or RI.

2. LIST OF CHARACTERS WITH STROKE

* indicates this character is included with canonical decomposition in the proposal (WG2 N4282)

** indicates this character is included as part of ballot comments on the CD, WG2 N4398
