

**ISO/IEC JTC 1/SC 2/WG 2**  
**PROPOSAL SUMMARY FORM TO ACCOMPANY SUBMISSIONS**  
**FOR ADDITIONS TO THE REPERTOIRE OF ISO/IEC 10646<sup>1</sup>**

Please fill all the sections A, B and C below.

Please read Principles and Procedures Document (P & P) from <http://std.dkuug.dk/JTC1/SC2/WG2/docs/principles.html> for guidelines and details before filling this form.  
 Please ensure you are using the latest Form from <http://std.dkuug.dk/JTC1/SC2/WG2/docs/summaryform.html>.  
 See also <http://std.dkuug.dk/JTC1/SC2/WG2/docs/roadmaps.html> for latest Roadmaps.

#### A. Administrative

1. Title: **2. Proposals for addition of 4 characters / 11 reformed vowel signs / reformed shapes of 4 characters in total 19 characters in Tamil Block (0B80 – 0BFF)**
2. Requester's name: **A.R.Amaithi Anantham**
3. Requester type (Member body/Liaison/Individual contribution): **Individual Contribution**
4. Submission date: **07.05.2015**
5. Requester's reference (if applicable): \_\_\_\_\_
6. Choose one of the following:  
 This is a complete proposal: **Complete**  
 (or) More information will be provided later: \_\_\_\_\_

#### B. Technical – General

1. Choose one of the following:  
 a. This proposal is for a new script (set of characters): **No**  
     Proposed name of script: **Tamil-Latin (TL) Script**  
 b. The proposal is for addition of character(s) to an existing block: **Yes**  
     Name of the existing block: **Tamil Block (0B80 – 0BFF)**
2. Number of characters in proposal: **19**
3. Proposed category (select one from below - see section 2.2 of P&P document):  
 A-Contemporary **15** B.1-Specialized (small collection) **4** B.2-Specialized (large collection) \_\_\_\_\_  
 C-Major extinct \_\_\_\_\_ D-Attested extinct \_\_\_\_\_ E-Minor extinct \_\_\_\_\_  
 F-Archaic Hieroglyphic or Ideographic \_\_\_\_\_ G-Obscure or questionable usage symbols \_\_\_\_\_
4. Is a repertoire including character names provided?  
 a. If YES, are the names in accordance with the “character naming guidelines” in Annex L of P&P document? **Vide Enclosure 1**  
 b. Are the character shapes attached in a legible form suitable for review? **Yes**
5. Fonts related:  
 a. Who will provide the appropriate computerized font to the Project Editor of 10646 for publishing the standard?  
**National Body C – DAC**  
 b. Identify the party granting a license for use of the font by the editors (include address, e-mail, ftp-site, etc.):  
**[webmaster@cdac.in](mailto:webmaster@cdac.in); [webinfo@cdac.in](mailto:webinfo@cdac.in)**
6. References:  
 a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided? **Yes**  
 b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached? **Amil Block**
7. Special encoding issues:  
 Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)? **Yes**  
**Vide Enclosure 1, 2.1, 2.2, 3 and 4**
8. Additional Information:  
 Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at <http://www.unicode.org> for such information on other scripts. Also see Unicode Character Database (<http://www.unicode.org/reports/tr44/>) and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

<sup>1</sup> Form number: N4502-F (Original 1994-10-14; Revised 1995-01, 1995-04, 1996-04, 1996-08, 1999-03, 2001-05, 2001-09, 2003-11, 2005-01, 2005-09, 2005-10, 2007-03, 2008-05, 2009-11, 2011-03, 2012-01)

### C. Technical - Justification

1. Has this proposal for addition of character(s) been submitted before?	<input type="checkbox"/> No
If YES explain	
2. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?	<input type="checkbox"/> Yes
If YES, with whom?	The Government of India
If YES, available relevant documents:	
3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?	<input type="checkbox"/> Tamil Community
Reference:	About 10 Cr, all over the world
4. The context of use for the proposed characters (type of use; common or rare)	<input type="checkbox"/>
Reference:	Common use 15 and rare use 4
5. Are the proposed characters in current use by the user community?	<input type="checkbox"/>
If YES, where? Reference:	No
6. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP?	<input type="checkbox"/> Yes
If YES, is a rationale provided?	<input type="checkbox"/> Yes
If YES, reference:	Inconformity with Indic Script
7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?	<input type="checkbox"/> Yes
8. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?	<input type="checkbox"/> yes
If YES, is a rationale for its inclusion provided?	<input type="checkbox"/>
If YES, reference:	
9. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?	<input type="checkbox"/> No
If YES, is a rationale for its inclusion provided?	<input type="checkbox"/>
If YES, reference:	
10. Can any of the proposed character(s) be considered to be similar (in appearance or function) to, or could be confused with, an existing character?	<input type="checkbox"/> Yes
If YES, is a rationale for its inclusion provided?	<input type="checkbox"/> Yes
If YES, reference:	
11. Does the proposal include use of combining characters and/or use of composite sequences?	<input type="checkbox"/> No
If YES, is a rationale for such use provided?	<input type="checkbox"/>
If YES, reference:	
Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided?	<input type="checkbox"/>
If YES, reference:	
12. Does the proposal contain characters with any special properties such as control function or similar semantics?	<input type="checkbox"/> No
If YES, describe in detail (include attachment if necessary)	
13. Does the proposal contain any Ideographic compatibility characters?	<input type="checkbox"/> No
If YES, are the equivalent corresponding unified ideographic characters identified?	<input type="checkbox"/>
If YES, reference:	

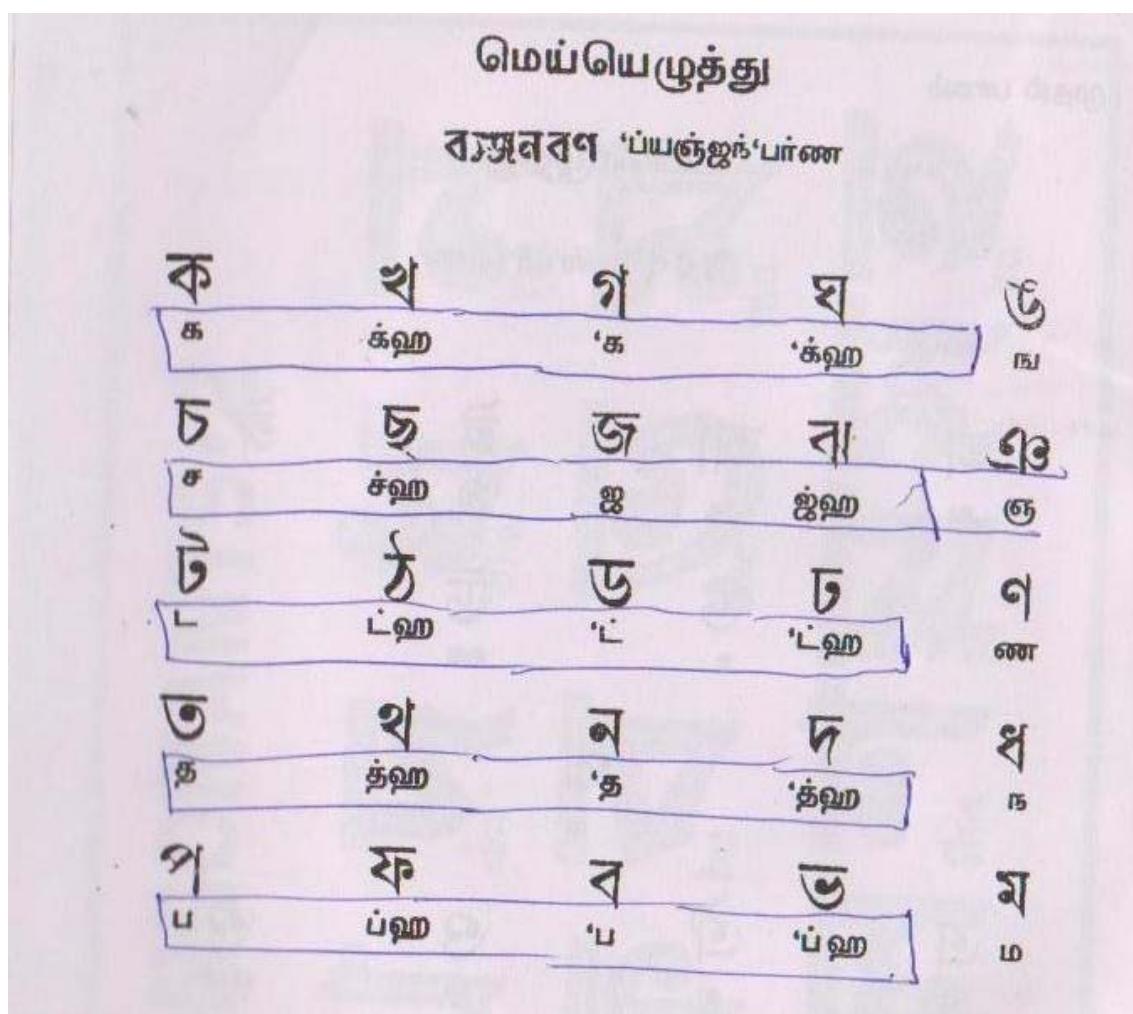

Proposals for addition of 4 characters, reforming of 11 vowel signs and reforming of shapes of 4 characters, totally 19 characters, in Tamil Block

## INTRODUCTION

The addition of characters will upgrade the Tamil Script, so as to transliteration of other Indic Scripts to Tamil Script, even though they are rarely used.

Four characters, being Sonant against Surds are required to be added. Greater difficulties are being met by for teaching other Indian languages through Tamil Script, as regard aspirated alphabets. To overcome this, the publishers provide unauthorized alphabets as given below, by Balagi Publications for learning Bengali Language and Hindi language through Tamil. There is no uniformity.

For Bengali: (1) ক; (2) কঁ; (3) ‘ক; (4) ‘কঁ Vide the imagebelow:

For Hindi: (1) ક; (2) ક<sup>2</sup>; (3) ક<sup>3</sup>; (4) ક<sup>4</sup>; Vide the image below:

## 2. மெய் எழுத்துக்கள் (வ்யங்ந)

க்	க்	க்	க்	க்
க்	க் <sup>2</sup> (kh)	க் <sup>3</sup> (g)	க் <sup>4</sup> (gh)	க்
ஞ்	ஞ்	ஞ்	ஞ்	ஞ்
ஞ்	ஞ் <sup>2</sup> (chh)	ஞ்(j)	ஞ் <sup>4</sup> (jh)	ஞ்.
ஞ்	ஞ்	ஞ்	ஞ்	ஞ்
ஞ்	ஞ் <sup>2</sup> (t̪h)	ஞ் <sup>3</sup> (d̪)	ஞ் <sup>4</sup> (d̪h)	ஞ்
ஞ்	ஞ்	ஞ்	ஞ்	ஞ்
ஞ்	ஞ் <sup>2</sup> (th)	ஞ் <sup>3</sup> (d)	ஞ் <sup>4</sup> (dh)	ஞ்
ஞ்	ஞ்	ஞ்	ஞ்	ஞ்
ஞ்	ஞ் <sup>2</sup> (ph)	ஞ் <sup>3</sup> (b)	ஞ் <sup>4</sup> (bh)	ஞ்

The existing vacant code points are best utilized for 4 Sonants alone. Aspirated alphabets, being combined alphabets are not grammatically allowed, in Tamil. Therefore pair of primary alphabets has been used without any violation of Tamil grammar. In the keyboard 10 keys are provided each aspirated alphabet. These keys will contain the pair to represent it, like ஃக, ஃக, etc. Therefore no code points are needed for the 10 aspirated alphabets. The first alphabet (ஃ) being silent or fixed, while the second alphabet will be receiving the 11 vowel signs, one at a time.

Similarly the reforming of vowel signs also is the need of the hour. During Tholkappier times, all the vowel consonants were single figured, according to his version, "புள்ளி இல்லா எல்லா மெய்யும்..... ஆயீரியல்".

During 7th century or so the system of vowel signs, similar to the present system came into existence, resulting in double and triple figured vowel consonants, facilitating to remember only about 60 shapes as against 247 or so. In type writer machine era, here and there some modifications were made, to suit the usage of type machine and also to facilitate printing process.

Now, in the computer era, the encoding problems arise, resulting in display and output deficiency, in Tamil documents. To overcome this, the Unicode consortium tries with the aid of UCNS and \_Indic\_mantra\_property. But, the implementers find it very difficult to achieve the computing Skill of Indian languages.

The location of vowel signs is posing problems. Therefore the vowel signs have been reformed as per requirements of computing systems. Similarly, the double figured vowels "உங்" and "ஓங்" is reformed. The alphabet "உங்" is so large and inconvenient to handle. So it has been replaced with a small compact shape. The shape of alphabet "உ" is unbalanced for positioning the vowel sign over it. The vertical line on extreme end is moved to the center and appears like உ, inverted "T". All the above reforms will definitely upgrade the Tamil Script.
