

# Submission Proposal

Author: Justin Ashley

Subject: Musical Instruments

Date of Submission: September 12, 2015

I am submitting a proposal for new musical instrument emojis to be added to Unicode

I am a musician, and while there are a few musical instrument emojis (5 — to be exact), there are not enough to cover the wide variety of commonly played instruments. With Unicode 8, there was added support for new sports, and it is only fair to now include added support for new musical instruments. Below I will suggest all of the musical instruments that should be included.

## **Already Included in Unicode 8**

- Piano (I think this should be changed to show a grand piano in particular — either a bird's-eye view or a side view)
- Saxophone
- Trumpet
- Electric Guitar
- Violin

## **Should be Included in Future Unicode**

- French Horn (I play this instrument so I would appreciate this one!)
- Trombone
- Tuba
- Baritone/Euphonium (would look similar to Tuba so perhaps not needed)
- Flute
- Clarinet
- Bass Clarinet
- Snare Drum
- Xylophone
- Harp
- Acoustic Guitar
