

Proposed Update Unicode® Standard Annex #41

COMMON REFERENCES FOR UNICODE STANDARD ANNEXES

Version	Unicode 10.0.0 (draft 3)
Editors	Laurențiu Iancu, Rick McGowan
Date	2017-03-01
This Version	http://www.unicode.org/reports/tr41/tr41-20.html
Previous Version	http://www.unicode.org/reports/tr41/tr41-19.html
Latest Version	http://www.unicode.org/reports/tr41/
Latest Proposed Update	http://www.unicode.org/reports/tr41/proposed.html
Revision	20

Summary

This annex presents a common set of references for the Unicode Standard Annexes.

Status

*This is a **draft** document which may be updated, replaced, or superseded by other documents at any time. Publication does not imply endorsement by the Unicode Consortium. This is not a stable document; it is inappropriate to cite this document as other than a work in progress.*

A Unicode Standard Annex (UAX) forms an integral part of the Unicode Standard, but is published online as a separate document. The Unicode Standard may require conformance to normative content in a Unicode Standard Annex, if so specified in the Conformance chapter of that version of the Unicode Standard. The version number of a UAX document corresponds to the version of the Unicode Standard of which it forms a part.

Please submit corrigenda and other comments with the online reporting form [\[Feedback\]](#). For the latest version of the Unicode Standard, see [\[Unicode\]](#). For a list of current Unicode Technical Reports, see [\[Reports\]](#). For more information about versions of the Unicode Standard, see [\[Versions\]](#). For any errata which may apply to this annex, see [\[Errata\]](#).
