PROPOSAL FOR ONION EMOJI
Submitted by Clint Adams and Jennifer 8. Lee of Emojination

Abstract
This proposal requests the addition of ONION to the Unicode Emoji character library. The common onion is the most widely-cultivated species in the Allium genus, and culinarily worldwide.

_Bulb onion_

Introduction

With a history of several thousand years of human consumption and use, onions have been featured in recipes, writings, and art worldwide. Onions are available in a number of forms and varieties. In addition to being recognizable culinarily, onions are also known for making people cry.0 The layered structure of their bulbs is the basis for a common metaphor:

_shrek: ogres are like onions._
_donkey: they stink?_  
_shrek: yes. no._  
_donkey: oh, they make you cry._  
_shrek: no._  
_donkey: oh, you leave em out in the sun, they get all brown, start sproutin’ little white hairs._  
_shrek: no. layers. onions have layers. ogres have layers. onions have layers. you get it? we both have layers._  
_donkey: oh, you both have layers. oh. you know, not everybody like onions._

Onions are critical components of mirepoix, sofrito, soffritto, refogado, sazón, the Cajun holy trinity, onion chutneys, and tarte à l’oignon.

They are the subject of figures of speech such as "peeling back the onion", "know your onions", « mêle-toi de tes oignons », and metaphors involving things that are layered. They have been featured in classic literature, including Shakespeare, Cervantes, and Chaucer

Onions are believed to have health benefits, such as reducing or healing inflammation, and preventing cancer.

In computer networking, onion routing is a technique for anonymous communication over a computer network. In an onion network, messages are encapsulated in layers of encryption, analogous to layers of an onion. The encrypted data is transmitted through a series of network nodes called onion routers, each of which "peels" away a single layer, uncovering the data’s next destination. When the final layer is decrypted, the message arrives at its destination. The sender remains anonymous because each intermediary knows only the location of the immediately preceding and following nodes.1

Names

CLDR short name: onion  
CLDR keywords: onion, food, allium
Selection Factors Inclusion

Compatibility

While there have been many requests for an ONION emoji, most popular messaging services have not included a ONION emoji yet. This proposal seeks to rectify that.

Expected Usage Level

Frequency

We expect use of the ONION emoji to be high globally, as onion is found in cuisines throughout the world.

Multiple Usages

The ONION emoji would be used heavily by food-eaters, chefs, and people using metaphors about crying. It could be used in combination with other emoji to express a variety of prepared dishes.

It would be used in idioms and to refer to fictional characters and real people who are associated with onions.

Use in Sequences

cheese and onion pie: CHEESE WEDGE, ONION, PIE
French onion soup: FRANCE, ONION, POT OF FOOD
onion bread: ONION, BREAD
onion ring: ONION, RING
onion sandwich: ONION, SANDWICH
slicing onions: HOCHO, ONION
watery eyes/crying caused by chopping onions: HOCHO, ONION, CRYING FACE or LOUDLY CRYING FACE or SPLASHING SWEAT SYMBOL or DROPLET
たまねぎ剣士 (onion swordsman): ONION, FENCER

Image Distinctiveness

Bulb onions are instantly recognizable.
Completeness

Onion represents a major category of culinary and cultural experience which is not represented in the current emoji list. We argue that the Allium genus is underrepresented.

Frequently Requested

Twitter is full of people with various levels of outrage at the lack of onion emoji.

Selection Factors Exclusion

Overly Specific

While there are many delicious members of the Allium genus, none are currently represented in emoji.
Open Ended

If onion should open the floodgates to other edible plant bulbs, there are not that many. GARLIC is another.

Already Representable

Given that people are using the text "onion emoji" and the emoji CHESTNUT paired with an explanation that it is meant to be onion and not a chestnut, or the emoji CHESTNUT plus the emoji SEEDLING, it seems that there is no good way of representing onion in lieu of an actual ONION codepoint.

Transient

The onion has existed for thousands of years. It is in many, many recipes. The human race shows no signs of being ready to abandon it.

Logos, brands, UI icons, signage, specific people, deities

Onions are featured in many logos, brands, and trademarks. Several types of onion enjoy Protected Geographical Status in Europe. However, it would be absurd for onion itself to be the victim of intellectual property restrictions.

Clint Adams (clint@gcfm.net) is a food enthusiast. He is presently en route to a garlic festival but he might go to the Maui Onion Festival someday. His family’s pork chop recipe features a significant amount of onion.

Jennifer 8. Lee (jenny@emojicon.co) is the co-founder of Emojination. People have remarked on her ability to cut onions with tearing up. And the receipe to the most amazing marinara sauce ever is simply San Marzano tomatoes, a stick of butter and a whole ONION.
