Grant Support

Work on unencoded scripts has been funded primarily by donors and the National Endowment for the Humanities Preservation and Access grant. A new NEH grant has been awarded to Deborah Anderson (Universal Scripts Project, UC Berkeley, #PR-268710-20) to support work on scripts from 2020-2022.

Other SEI-Related Activities

SEI is supporting ongoing work by Carlos Pallán in identifying Mayan characters and quadrats from Classic period monuments for 2020-2021, with funding from a Google Research grant. Research into Classic period materials is required for a comprehensive Mayan script proposal. (Note: Additional support for Mayan has been provided by the Unicode Adopt-a-Character program and a separate NEH grant awarded to the Unicode Consortium.)
