Report Type: Request to move the tentative location of Kaktovik numerals on the roadmap

Recently, I submitted an exploratory proposal for the Kaktovik numerals (<https://www.unicode.org/L2/L2020/20070-kaktovik-numerals.pdf>). One of the goals was to agree on a range to place the characters in the roadmap.

The committee assigned the range 1D250-1D26F, however it would make more sense to place them next to the "Mayan Numerals" block and similarly, the pipa and flute ranges would be better next to the Ancient Greek musical notation.

So I propose to shift the chinese pipa and flute ranges, to be next to the Ancient Greek musical notation and the Kaktovik numerals to be next to the Mayan numerals.
