Title: Request for consideration to update kSBGY property in Unihan DB

Source: Eiso Chan (陈永聪, Culture and Art Publishing House)

Status: Individual Contribution
Action: For consideration by UTC

Date: 2023-06-06

When I did the research to update the kFanqie property, I found one kSBGY property value didn't match the source. I request to update this one, and I show the source pictures in this document.

In current Unihan Database, we can find the following which is included in Unihan_DictionaryIndices.txt.

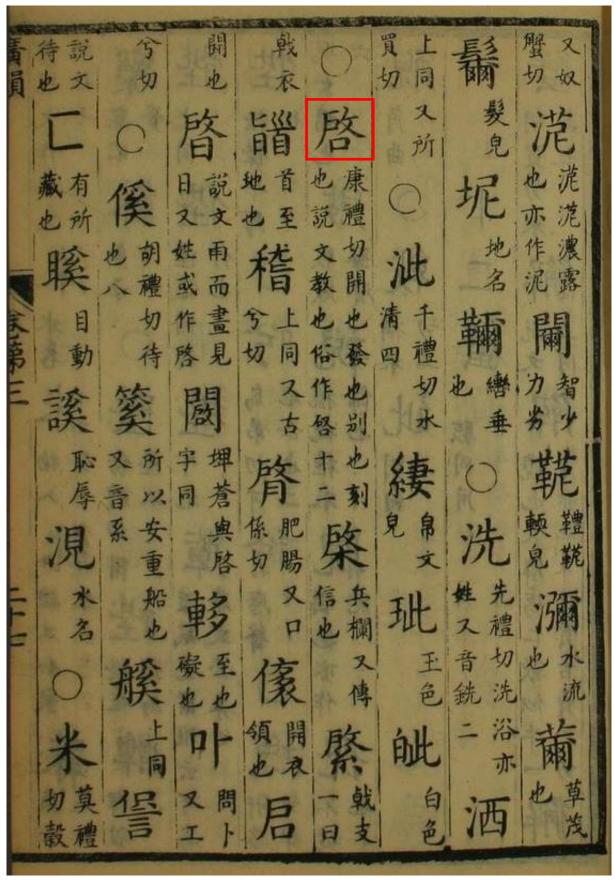

U+555F kSBGY 269.42

However, 啟 (U+555F) is not included in the source, which the character should be 啓 (U+5553), and there is no kSBGY property value for 啓 (U+5553) now. Therefore, my suggestion is shown as below.

			Removal
U+555F	kSBGY	269.42	
			Addition
U+5553	kSBGY	269.42	

The source pictures are shown as below.

《鉅宋廣韻》, 宋乾道五年刻本, 上聲卷第三

《廣韻》, 符山堂藏板, 上聲卷第三

《廣韻》, 龍谷大學藏至正南山書院刊本, 上聲卷第三

《廣韻》,覆元泰定本,上聲卷第三

《廣韻》,澤存堂本,上聲卷第三

Acknowledgement

Lee Collins (康立論) helped me confirm this issue and provided some comments.
