[L2/22-031](#) Updated proposal to encode the Tulu-Tigalari script in Unicode - Vaishnavi Murthy & Vinodh Rajan (p. 51)

[L2/17-182](#) Comments on encoding the Tigalari script - Srinidhi & Sridatta (p. 15)

[L2/15-162](#) Script property of A8F1 COMBINING DEVANAGARI SIGN AVAGRAHA - Shriramana Sharma (p. 3)

[L2/15-164](#) Editorial updates for Vedic characters - Shriramana Sharma (p. 5)

Introduction

In section 12 of L2/22-031, Kannada digits are proposed to be extended to Tulu-Tigalari. Few more characters are to be extended for use in Tulu-Tigalari and the details are given below.

- 1CF2 × VEDIC SIGN ARDHAVISARGA.

The attestations are given in Sec 6, page 15 of L2/17-182

- Indic Fractions (U+ A830 to U+A835)

The attestations are given in page 23 of L2/15-243

- Vedic signs

The attestations for A8F1 COMBINING DEVANAGARI SIGN AVAGRAHA are given page 3 of L2/15-162.

The attestations for 1CF4 VEDIC TONE CANDRA ABOVE are given in the page 5 and 6 of L2/15-164

Summary

1. Kannada digits (0CE6..0CEF)
2. Indic fractions (A830..A835)
3. Ardavisarga (1CF2)

4. COMBINING DEVANAGARI SIGN AVAGRAHA (A8F1)
5. VEDIC TONE CANDRA ABOVE (1CF4)
