Doc Type: Working Group Document
Title: UniHan numeric properties values additions for CJKUI Ext. J characters
Source: Eiso Chan (陈永聪, Culture and Art Publishing House)
Status: Individual Contribution
Action: For consideration by UTC
Date: 2025-09-30

During the review works of [IRG WS2021](#), I collected numeric information for several characters based on the submitted evidence. IRG WS2021 has been standardized as [CJKUI Ext. J](#) block since [Unicode, 17.0.0](#), so we could add the related information to the corresponding UniHan properties.

1. *kOtherNumeric*

Two characters are related to [kOtherNumeric](#) property.

UCS	Char.	Property	Value	WS SN
U+32403	𠄎	kOtherNumeric	200	WS2021-00100
U+324DF	𠄎	kOtherNumeric	50	WS2021-00370

These two characters are used historically as numerals, and both are used for Japanese materials.

2. *kVietnameseNumeric*

Six characters are related to [kVietnameseNumeric](#) property.

UCS	Char.	V. Reading	Property	Value	WS SN
U+32481	𠄎	sáu	kVietnameseNumeric	6	WS2021-00259
U+324E0	𠄎	chục	kVietnameseNumeric	10	WS2021-00371
U+324E8	𠄎	chục	kVietnameseNumeric	10	WS2021-00377
U+324E9	𠄎	mười	kVietnameseNumeric	10	WS2021-00378
U+3276D	𠄎	nhăm	kVietnameseNumeric	5	WS2021-01151
U+32C83	𠄎	trăm	kVietnameseNumeric	100	WS2021-02655
