Meeting / Liaison report	Meeting: VIRTUAL 25 Aug 2026	2026-07-27	**INFO**

Description

For review and consideration during the August 2026 SC 22 Plenary.

Unicode liaison report to ISO/IEC JTC 1/SC 22 #45

To: ISO/IEC JTC 1/SC 22
From: Robin Leroy (eggrobin@unicode.org)
Date: 2026-07-24

The liaison representative has worked with the Ada Rapporteur Group (under WG 9) and with subgroups of WG 21 (most notably SG 16, as well as EWG and CWG) to assist in interpreting and applying Unicode standards, and welcomes questions from other Working Groups, should such questions arise in their work.

Unicode Standard Annex #31, Unicode Identifiers and Syntax, which provides definitions for use in programming language syntaxes, continues to be actively maintained; a new version will be published as part of Unicode Version 18.0, to be released in September of 2026. Until publication of Unicode 18.0, see planned changes in the Proposed Update.
