

TITLE : About ditto mark and wave dash
SOURCE : China Delegation
STATUS : Discussion in IRG #2 meeting
DISTRIBUTION : IRG Members
DATE : 1994-02-04

During the WG2 24th meeting, Japan delegation made an applicant for change the character shape of 3003 (ditto mark) and 301c (wave dash), which could not be the same as JIS X0208 character shapes. Because they were unified CJK publishing characters and they are also used in China, we ask that we need confirm the change after the meeting.

Now we ascertain the characters new shapes are more reasonable, and we agree to the proposals on new shapes of ditto mark and wave dash, which were submitted by Japan.
