TITLE : IRG Related Items
Source : Zhang Zhoucai, IRG Rapporteur
Reffer to: WG2/N1175
Actions : for WG2's Consideration at its 28 the Meeting in Helsinki

1. Internal/Horizontal Supplementation of Ideographs Coded in UCS

3rd Draft has been published in 24x24 bitmap font on 20, June 1995, which is being circulated to IRG Editorial Group for review.

Ref: WG2/IRG/N208 (sample pages) =WG2/N1233

2. Vertical Extension of Ideographs

Status: See WG2/IRG/N207R = WG2/N12 36

1st Draft has been published on 20, June 1995, which is being circulated to IRG for review.

See: WG2/IRG/N209 (sample pages)=WG2/N1234

3. Components and Composition of Ideographs

Under discussion . Will continue to IRG 5th Meeting to be held in August.

4. KangXi Radicals WG2/N1182

TCA proposed to add 210 KangXi Radicals into compatibility zone.
WG2 Action Item 6.1.11 requested IRG to review the TCA contribution and give their evaluation to WG2.

According to the discussion on e_mail, before WG2-28 meeting there was **no objection received**. However, during the WG2-28 meeting, considering this issue relates to components of ideographs , IRG members attending the WG2 meeting suggested to treat this issue in conjunction with components of ideographs.

Rapporteur's decision: Defer the discussion to 5th IRG meeting.

5. Conditions for the Supplemental Repertoire of CJK Unified Ideographs with the ANNEX , Ideographs caused by source code separation rule

has been revised by Japan. Refer to: WG2/IRG/N205=WG2/N_____.

6. Future Meetings

5th IRG Meeting is planned to be held in Seoul on 21-25, August 1995. The hotel reservation information is circulated to IRG members. Formal call for the meeting will be sent out with agenda after WG2-28.

6th IRG Meeting was arranged in February 1996, in San Francisco Bay which seems needing change to be in pace with WG2-30 (planned also in San Francisco in the end of January 1996).
